ORGANIZATIONAL CHART

CITIZENS

May 14, 2024

To the Honorable Mayor, Members of the City Commission and the Citizens of the City of Lake Alfred, Florida

It is our pleasure to submit the Annual Comprehensive Financial Report for the City of Lake Alfred, Florida for the fiscal year end of September 30, 2023. The organization, form, and contents of this report, plus the accompanying financial statements and statistical tables, were prepared in accordance with the requirements of Governmental Accounting Standards Board, the American Institute of Certified Public Accountants, and the Governmental Finance Officers Association. In addition to meeting legal the requirements, this report also reflects the City's commitment to full financial disclosure. We encourage you to thoroughly read the report and the important items it addresses.

This report has been prepared by the Finance Department of the City of Lake Alfred, which assumes full responsibility for the completeness and accuracy of the information contained herein. To provide a reasonable basis for making these assertions, management had established a comprehensive internal control framework designed to protect the City's assets from loss, theft, or misuse. Furthermore, the City compiled sufficient reliable information for the preparation of the City's financial statements in conformity with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP). Because the cost of internal controls should not outweigh its benefits, the City of Lake Alfred's comprehensive framework of internal controls have been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatements. As part of the management, we assert that, to the best of our knowledge and belief, the financial report is complete and reliable in all material respects.

State law requires that a complete set of financial statements reporting on the City of Lake Alfred's financial position and results of activities be published within nine months of the fiscal year end. The City has contracted with a licensed public accountant, Brynjulfson CPA, P.A. to conduct the audit. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ending September 30, 2023, were free of any material misstatements. The independent auditor concluded there was reasonable basis for rendering an unmodified opinion that the City of Lake Alfred's financial statements were fairly presented and in conformity with U.S. GAAP. The report of the independent certified public accountant is presented as the first component in the financial section of the report.

U.S. GAAP requires management provide a narrative introduction, overview, and analysis to accompany the basis financial statements in the form of Management's Discussion and Analysis (MD & A). This letter of transmittal is designed to complement the MD& A and should be read in conjunction with it. The City of Lake Alfred's MD & A can be found following the report of the independent certified public accountant.

Profile of the Government

The City of Lake Alfred, Florida is a municipal corporation of the State, incorporated on June 30, 1915. Located in East Polk County, the 2023 population of Lake Alfred was estimated to be near 7,340. Encompassing approximately 19 miles, the City has been empowered to levy a property tax on real estate and personal property located within its boundaries. It has also been granted authority by State Statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the City Commission.

The City of Lake Alfred operates under the Council/Manager form of local government, which combines strong political leadership of elected officials, in the form of a non-partisan City Commission, with the strong managerial experience of the City Manager. Additionally, the City Commission is considered the principal legislative and governmental body of the city. The citizens elect its governing body, consisting of five Commissioners, which are responsible for enacting ordinances, budget adoption, appointing committee members, and hiring the City Manager, Attorney, and Auditor. The Commissioners are also responsible for nominating and approving its Mayor and Vice Mayor on an annual basis and all commissioners are elected at large. The City Manager, who serves as Chief Executive Officer, is responsible for carrying out the policies and ordinances enacted by the Commission and for the oversight of the day-to-day operations of the City. Furthermore, the manager is tasked with hiring the department heads of the various city departments.

The City of Lake Alfred is a full-service city and recognizes that a fundamental element to the overall quality of life is the health of the community's economy. Our community is a uniquely dynamic, attractive, and well-run municipality characterized by a combination of residential, industrial, and commercial developments. Services of the city include law enforcement, fire/rescue protection, solid waste management, water and wastewater service, roads and street maintenance, community development, cemetery operations, recreational and cultural activities, and general administrative services. Citizens enjoy the personalization of services provided by the city employees. Within the report, it includes all funds of the government.

The biennial budget is formally adopted by the City Commission and the level of budgetary control is set at the fund level. Budget to actual comparison is provided in this report.

Local Economy

The current economic conditions, environment, and local indicators indicate a slow upswing in property values within the City of Lake Alfred. The housing market affects revenues greatly due to the tax base being mainly residential. Permit activity continues to increase, and new houses are being built throughout the city.

Long Term Financial Planning

Long term financial planning requires the city to prepare a five-year capital improvement plan that identifies both capital improvements and related revenue sources. Capital requirements of enterprise operations are financed from capital reserves and from the users of the services through the fees. Additionally, capital requirements of the general fund operations are financed from the general fund revenues or reserve funds. Areas of new construction or capital costs associated with growth are funded with impact fees.

Currently, the unassigned fund balance in the General fund is \$4,569,803 which 49% of general fund expenditures, this is equal to the Government Finance Officers Association recommended minimum amount of 15%. The City Commission and City Manager continue to work on the needs of the community, while at the same time meeting the needs in a cost-effective and efficient manner. The following projects are planned for the next year and beyond:

- Fire Engine Replacement will be paid for with the assigned Fundbalance for capital outlay. Management is allocation \$50,000 a year for this purchase.
- Community Redevelopment Area (CRA) improvement projects are Central Park phase 2 and phase 3. Phase 2 is approximately 50% completed.
- Construction plans for a new water plant will be completed in 2024. Construction should begin in 2025. Project being funded by the State Revolving loan program.
- Sewer Extension on County Road 557 will allow the city to serve the developments being built.
- Purchase and renovate bank building located at 155 Lake shore drive for offices.
- Wastewater plant expansion is being engineered. Project being funded by the State Revolving Loan Program.
- Increasing staffing levels to accommodate service level surge due to population growth.

Relevant Financial Policy

The main financial policy that has a significant impact on financial statements is the fund balance reserve policy. The policy established the spending order of fund balances, and reservations of fund balance for the general fund.

Major Initiatives

During the fiscal year 2023, the City of Lake Alfred achieved many significant accomplishments in furtherance of the goals and objectives established by the Commission without adding any debt.

- Closure of the General Employees' Pension and offering new hires a 401a.
- Annexation of Hilochee Wildlife management Area, a total of 6,054 acres.
- Purchased 20 acres for Northern Park Complex.
- Completed first residential façade grant program thru the Community Redevelopment Agency.
- Transportation plan completed establishing a transportation impact fee starting October 1,2023.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lake Alfred, Florida for its Annual Comprehensive Financial Report (ACFR) for the fiscal year end of September 30, 2023. This was the eleventh year the city received this prestigious award. To be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized ACFR, which satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is only valid for one year. We believe the current ACFR continues to meet the requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The in-house preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. Other City departments, although not extensively involved in year-end audit activities, contributed significantly by ensuring the accuracy and integrity of accounting information compiled throughout the year. Without their diligence, the work of the Finance Department would have been considerably more difficult.

Appreciation must also be expressed to the City's auditor, Brynjulfson, CPA, whose suggestions and attention to detail enhanced the quality of this report.

Respectfully submitted.

Ryan Leavengood City Manager

Amber Deaton Finance Director

Government Finance Officers Association

City of Lake Alfred Florida

For its Annual Comprehensive Financial Report For the Fiscal Year Ended

September 30, 2022

Christopher P. Morrill

Executive Director/CEO

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Commission City of Lake Alfred, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lake Alfred, Florida (the City) as of and for the year ended September 30, 2023 and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (concluded)

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's
 internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as provided in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining fund financial statements and nonmajor governmental fund budgetary comparison schedules are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements and nonmajor governmental fund budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

Other Information (concluded)

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 14, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Other Reporting Required by Chapter 10.550, Rules of the Auditor General

In accordance with *Chapter 10.550, Rules of the Auditor General,* we have also issued our report dated May 14, 2024, on our examination of compliance with requirements of Section 218.415, *Florida Statutes*. The purpose of this report is to describe the scope of our examination and the issuance of an opinion on the City's compliance with requirements of Section 218.415, *Florida Statutes*.

Brynjulfson CPA, P.A. Auburndale, Florida

Brynjutson CPA, P.A.

May 14, 2024

The City of Lake Alfred's Management's Discussion and Analysis (MD&A) is designed to provide an objective and easy to read analysis of the City's financial activities. The analysis is designed to assist the reader in focusing on significant financial issues, provide an overview of the City's financial activity, identify the changes in the City's financial position (its ability to address the next and subsequent year challenges), identify any material deviations from the financial plan (the approved budget), and identify individual fund issues of concern.

Financial Highlights

- The assets and deferred outflows of resources of the City of Lake Alfred exceeded its liabilities and deferred inflows of resources on September 30, 2023 by \$46,596,037 (net position). Of this amount, \$6,887,551 is reported as unrestricted net position which may be used to meet the City's ongoing obligations to citizen's and creditors.
- The City's total net position increased by \$8,455,294 during the current year compared to an increase of \$7,214,360 during the previous year. The current year activity increased the governmental activities' net position by 15% and increased the business-type activities by 33%.
- As of September 30, 2023, the City of Lake Alfred's governmental funds reported combined ending fund balances of \$7,796,837, an increase of \$313,183 in comparison with the prior year ending balance of \$7,483,654. General fund balance increased by \$3,024,305. Unassigned and assigned fund balance totaled \$2,673,803 compared to \$5,171,451 at the end of the previous fiscal year, a \$2,497,648 (48%) decrease. Unassigned and assigned fund balance is available for spending at the City's discretion.
- The City of Lake Alfred's total net long-term debt decreased by \$432,798 (26%) during the fiscal year.

UNDERSTANDING THE BASIC FINANCIAL STATEMENTS

The financial statements focus on both the City as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the City's accountability. The statement of net position and statement of activities seeks to give the user a combined overview of the City's financial position; eliminates interfund activities, and "other people's money", such as pension funds, which can mislead users when incorporated in a combined manner.

The reporting model requires the use of accrual accounting (which focuses on economic resources) at the topmost level, while maintaining modified accrual accounting (which focuses on current financial resources – budget resources) at the individual fund level. The impact of long-term financial decisions can be more properly matched to the period in which the expense or revenue is more properly attributed. More fairness in presentation is achieved and the impacts of long-term decisions are promptly recorded as the transactions occur, as opposed to the traditional method of recording them when the bill is paid.

The MD&A is intended to serve as an introduction to the City's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2023

Government-wide Financial Statements

The government-wide financial statements consist of a Statement of Net Position and a Statement of Activities. Both statements represent an overview of the City as a whole, separating its operations between governmental and business-type activities.

The governmental activities of the City include general government, police and fire departments, roads and streets, sanitation, library, community development, public works, community redevelopment and parks and recreation.

The business-type activities of the City include the water, sewer and stormwater departments. All information is presented utilizing the economic resource measurement focus and accrual basis of accounting. This method better matches revenues and expenses to the period in which the revenue is earned and the expense attributed.

Fiduciary funds, such as pension trust funds, are excluded from the government-wide financial statements as they represent money and funds legally set aside for use by the employee groups they benefit. Florida law requires municipalities to fund pension plans on an actuarially sound basis; therefore, it is important for the user to study the fund financial statements as well as the notes to the financial statements.

The statement of net position presents information on all the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the residual measure reported as net position. The focus of the statement of net position is designed to be similar to bottom line results for the City and its governmental and business-type activities. This statement combines and consolidates governmental fund current resources (short-term spendable resources) with capital assets and long-term obligations. Over time, the increase or decrease in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year, focusing on both the gross and net cost of various activities, both governmental and business-type, that are supported by the government's general tax and other revenues. This is intended to summarize and simplify the user's analysis of cost of various governmental services and/or subsidy to various business-type activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over the resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar.

CITY OF LAKE ALFRED, FLORIDA MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2023

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statement. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the governmental-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the governmental-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions.

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains four separate governmental funds — the general fund, American Rescue Plan Act special revenue fund, impact fee special revenue fund and the community redevelopment agency special revenue fund. Information is presented separately for each major governmental fund in the governmental fund balance sheet and the governmental fund statement of revenue, expenditures and change in fund balances. Budgetary comparison schedules for each major governmental fund with a legally adopted budget has been provided to demonstrate compliance with the budget in the required supplementary information section of this report and can be located by referencing the table of contents of this report. The basic governmental funds financial statements, governmental funds combining schedules and budgetary comparison schedules can be located by referencing the table of contents of this report.

Proprietary Funds - The City utilizes one type of proprietary fund, an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water, sewer, and storm water departments. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements can be located by referencing the table of contents of this report.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government—wide financial statement because the resources of those funds are not available to support the City's own programs. While these funds represent trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statement can be located by referencing the table of contents of this report.

Notes to Financial Statements - The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – This report also presents certain required supplementary information which consists of the general fund budgetary comparison schedule, schedules of changes in the total OPEB liability and related ratios, and the schedule of changes in the net pension liability and related ratios and the schedule of contributions for the City's general employees' retirement system and the police officers' and firefighters' retirement system. Required supplementary information can be located by referencing the table of contents of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position - As noted earlier, net position may serve over time as a useful indicator of a government's financial position.

The following table reflects the condensed statement of net position for the current year, as compared to the prior year. For more detailed information see the statement of net position which can be located by referencing the table of contents of this report.

Statement of Net Position (Summary) as of September 30,

	Governmen	Governmental Activities Business-type Activities			Total Primary Government		
	2023	2022	<u>2023</u>	2022	2023	<u>2022</u>

Unrestricted	6,076,841	5,903,723	810,710	1,686,163	6,887,551	7,589,886	
Total net position	\$ 25,739,619	\$ 22,434,004	\$ 20,856,418	\$ 15,706,739	\$ 46,596,037	\$ 38,140,743	

Sixty-seven percent (67%) of the City's net position reflects its investment in capital assets (e.g., land, buildings, sewer and water system, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (18%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (15%) may be used to meet the government's ongoing obligations to citizens and creditors.

Statement of Activities – While net position of the City represents the difference between 1) assets and deferred outflows of resources and 2) liabilities and deferred inflows of resources, the statement of activities reports the changes in net position during the fiscal year using the economic resources measurement focus and accrual basis of accounting. The following table reflects the condensed statement of activities for the current year. For more detailed information see the statement of activities which can be located by referencing the table of contents of this report.

Statement of Activities (Summary) For the year ended September 30,

	Governmen	tal Activities	Business-typ	oe Activities	Total Primary	Government
	2023	2022	2023	2022	2023	2022
Revenues:						
Program Revenues:

Net position - Beginning	22,434,004	17,256,604	15,706,739	13,669,779	38,140,743	30,926,383
Net position - Ending	\$ 25,739,619	\$ 22,434,004	\$ 20,856,418	\$ 15,706,739	\$ 46,596,037	\$ 38,140,743

Governmental Activities - Governmental activities increased the City's net position by \$3,305,615 for the current year compared to an increase of \$5,177,400 in the prior year. The main reasons for the decrease are as follows:

- Total revenue decreased by approximately \$15,000 (less than 1%).
 - Charges for services increased by approximately \$1,250,000 (76%) and capital grants and contributions increased by approximately \$1,137,000 (85%) mainly as a result of increased building permit fees and impact fees due to increased construction related activity within the City.
 - General revenue decreased by approximately \$2,480,000 (31%) mainly driven by the recognition of \$3,133,841 of U.S. Department of Treasury Coronavirus State and Local Fiscal Recovery Funds in the prior year that did not recur in 2023. The City utilized this program revenue to partially fund governmental services during 2022.
- Total expenses increased by approximately \$1,936,000 or 29% mainly due to the following functions that experienced significant increases during 2023:
 - General government expenses increased by approximately \$434,390 (27%) mainly due to increased personnel costs of approximately \$189,500 (22%), increased legal expenses of approximately \$77,000 (88%) and the remaining increase is due to a myriad of changes to a diverse set of expense categories.
 - Police expenses increased by approximately \$440,000 (34%) mainly due to an approximate \$393,100 (38%) increase in personnel costs including an approximate \$188,000 increase in pension expense because of lower-than-expected investment returns on plan investments during the year ended September 30, 2022, which was the date at which the City's September 30, 2023 net pension elements were measured.
 - Fire expenses increased by approximately \$266,000 (40%) mainly due to an approximate \$242,000 (45%) increase in personnel costs including an approximate \$166,000 increase in pension expense because of lower-than-expected investment returns on plan investments during the year ended September 30, 2022, which was the date at which the City's September 30, 2023 net pension elements were measured.
 - Parks and recreation expenses increased by approximately \$332,000 (48%) mainly due to a \$69,000 (38%) increase in personnel costs, \$120,000 of noncapital related expenses related to a land purchase, \$51,000 increase in repair and maintenance expenses, and an approximate \$56,000 increase in depreciation expense as Central Park phase I improvements were placed in service in mid-2022 and realized a full year of depreciation expense in 2023.

Business-type activities - Business-type activities increased the City's net position by \$5,149,679 for the current year compared to a \$2,036,960 increase in the prior year. The main reasons for the increase are as follows:

- Total revenue increased by approximately \$3,671,000 or 70% mainly due to the following:
 - Increased capital grants and contributions of \$2,758,000 (131%) caused by an increase in impact fee revenue of \$3,367,000 (520%) partially offset by a decrease in the amount of water and sewer infrastructure donated to the City by land developers in the current year (\$601,000). Impact fees increased due to increased construction within the City.

- Charges for services increased by approximately \$671,115 or 21%. These revenue increases were
 mainly due to increased utility customers as a result of increased residential home construction
 within the City in the current and prior year.
- Total expenses increased by \$479,285 or 18% due to a myriad of changes across a broad range of expense
 accounts including an approximate \$195,000 (22%) in personnel costs, an approximate increase of
 \$48,000 (60%) in repair and maintenance expenses, and an approximate \$49,000 increase in depreciation
 expense. Depreciation expense has increased as significant developer donated infrastructure has been
 placed into service over the last two years.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the City's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental Funds - As of the close of the current year, the City's general fund had unrestricted cash and cash equivalents of \$2,561,895 compared to \$1,970,914 at the close of the prior year.

As of the end of the current fiscal year, the City's governmental funds reported ending fund balances of \$7,796,837 an increase of \$313,183 in comparison with the previously reported balance in the prior year. Of this total, \$2,673,803 for the general fund constitutes unassigned and assigned fund balance which is available for spending at the government's discretion. The remainder of fund balance is nonspendable or restricted by enabling legislation or contract and can only be spent on the purposes for which it is intended.

Activity during the current fiscal year included the following key components:

- Fund balance in the general fund increased by \$3,024,305 in the current year, mainly due to:
 - Total general fund revenue increased by \$1,896,975 or 29%, mainly due to:
 - Tax revenue increased by approximately \$490,000 (15%) mainly due to increased taxable value of property within the City and increased economic activity overall.
 - Licenses and permits increased by approximately \$1,012,000 (184%) and charges for services increased by approximately \$162,000 (17%) mainly attributable to increased building permits, fees and other charges caused by increased construction activity compared to the prior year.
 - Total general fund expenditures increased by approximately \$2,529,000 or 38%, mainly due to:
 - Major changes between 2023 and 2022 are discussed above under the "governmental activities" heading.
 - In addition to the above changes and present due to reporting focus differences, fund level capital outlay expenditures increased by \$1,446,458 (175%) mainly due to increased capital project and equipment expenditures when compared to the prior year.
 - Other financing sources increased by approximately \$3,238,000 due to increased interfund transfers
 of \$3,213,455 as the residual balance of the American Rescue Plan Grant special revenue fund was
 transferred to the general fund in 2023.

 The only other major governmental fund is the impact fee special revenue fund whose revenue increased by approximately \$1,730,500 (639%) due to increased construction related activity within the City. Impact fee fund expenditures increased from zero in 2022 to \$1,547,487 in 2023 as the City utilized these funds to pay for allowable capital outlay expenditures.

Proprietary Funds - The enterprise fund's unrestricted cash and investments totaled \$3,142,721 compared to \$1,488,746 at the close of the prior year, a \$1,653,975 increase, mainly due to interfund borrowing from the general fund of \$2,396,000 partially offset by other uses of unrestricted cash during the year. The City's proprietary fund provides the same information found in the government-wide financial statements, but in more detail. The major changes between 2023 and 2022 are discussed above under the "business-type activities" heading.

BUDGETARY HIGHLIGHTS

General Fund:

During the year there was a \$1,754,365 or 19% net increase in the anticipated general fund revenue between the original and final amended budget. This increase was mainly due to the following items:

- Budgeted license and permit revenue as well as charges for services revenue were increased by \$1,091,855 and \$176,590, respectively, due to greater than anticipated construction activity within the City.
- Budgeted investment income was increased by \$100,688 as interest earned on the City's cash deposits
 and investments during the year exceeded the amounts originally budgeted.
- Budgeted tax revenue was increased by \$392,328 due to greater than expected collections.

During the year there was a \$1,905,240 or 19% net increase in general fund expenditure appropriations between the original and final amended budget. These increases/decreases were mainly due to the general fund expenditures that varied from the original budget and for a myriad of reasons.

Actual revenue was more than the final budgeted amounts by \$75,121 or 1% of the final budget, actual expenditures less than the final budgeted amounts by \$1,623,406 or 14% of the final budget and other financing sources were \$3,029,841 more than the final budgeted amounts for an overall unfavorable budgetary variance of \$4,690,368.

The City did not adopt a budget for the impact fee special revenue fund and therefore budgetary analysis of this fund is not possible.

Additional information can be found in the required supplementary section of this report which can be found by referencing the table of contents.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets - The City's investment in capital assets for its governmental and business type activities as of September 30, 2023, amounts to \$32,824,621 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, sewer and water systems, machinery and equipment, and construction in progress.

Major capital assets placed into service (excludes construction in process) during the fiscal year included the following:

Governmental activities:

- (2) Ford Explorer \$82,059
- Standing mower \$13,100
- Radio \$5,070
- (1) Ford F-150 truck \$42,000
- Police equipment shed \$15,988
- (2) Gravely Pro-Turn mowers \$21,550
- Sanitation cans \$36,859
- Sidewalk improvements \$54,000
- Road resurfacing \$220,900
- (2) Golf carts \$26,600
- Recording system \$10,763
- 155 Lakeshore Way building and land \$1,614,882
- Future park land \$1,206,510
- Donated roadway network \$332,019
- Other land acquisitions \$32,664
- Central Park Phase 2 parking overlay \$53,000

Business-type activities:

- Land acquisitions \$405,595
- (3) Generators \$86,685
- New water meters \$247,961
- Lake George force main \$315,514
- Donated water infrastructure \$210,870
- Donated wastewater infrastructure \$552,289

CURRENTLY KNOWN FACTS, DECISIONS AND CONDITIONS

Due to the unprecedented level of anticipated growth, we are set to receive, the city adopted a 10-year Facility Plan which includes over \$120 million dollars in projects for a new water plant, a wastewater plant expansion, new city hall, additional fire and police stations, and recreation facilities among others. These facility needs are reflective of a maximum buildout of 6,000 residential units over the next 10 years which if realized would add approximately 15,000 to the population. For perspective, it took the city over 100 years to reach a 5,000 population and the city currently has approximately 6,500 residents. The facility plan accounts for an aggressive growth rate; if growth slows and those targets are not met the plan can stretch over a 15 to 20 year period as necessary based upon the growth we actually experience.

Substantial projects are generally split between implementation of the Parks and Recreation Master Plan and Utility Projects. Inflationary pressures combined with high project demand from other Cities have increased costs by approximately one third (33%) from previous estimates on most projects.

Our largest risk factors will be in the debt service tied to alternative water supply and the wastewater plant expansion as these commitments must be made on projections (i.e. before we receive the customers). Even if the larger economy goes into recession, we will likely be insulated from the worst effects of it as our region and City continue to grow albeit at a potentially slower pace.

Residential growth in the northern corridor along CR 557 should help increase the market demand for commercial and retail development in the downtown core. This will afford us better options as we look to develop the city owned downtown parcel which we will seek proposals on going into next year. Increases to homeowner's insurance premiums and higher interest rates should put downward pressure on home values but this is being offset by high demand and out of state buyers. A flattening of values in real terms although with inflation we still may see nominal increases to valuations. Long-term, this raises questions of affordability, especially with existing residents that will be priced out of their own market if they did not previously own a home. This trend will also further put pressure on compensation so that employees, both private sector and public, can afford to live in the communities they work in.

Overall, the City is in sound financial condition with strong investments in capital. Larger macroeconomic trends present several risk factors which the city is prepared to mitigate against by funding reserves; hiring additional personnel based on experienced need versus anticipated need; and maintaining/enhancing healthy margins in discretional spending/capital that can be pared down in the event of a downturn.

MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2023

REQUESTS FOR INFORMATION

The financial report is designed to provide an overview of the City of Lake Alfred's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City of Lake Alfred, 155 E Pomelo Street, Lake Alfred, Florida, 33850.

Amounts are reported for governmental activities in the statement of net position are different because:

FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 7,796,837
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds except for deposits on capital asset acquisitions which are reported in the funds.	17,362,559
Real property held for investment is not a financial resource and not reported in the funds.	950,000
Revenues not received within the "availability" period are deferred at the fund level and recognized in the statement of activities.	40,715
Deferred outflows of resources represent an decrease in net position or fund balance that applies to a future period(s) and, therefore, are not reported in the governmental funds.	1,835,156
Deferred inflows of resources represent an increase in net position or fund balance that applies to a future period(s) and, therefore, are not reported in the governmental funds.	(49,544)
Long-term liabilities, including bonds and notes payable, compensated absences, OPEB liabilities and net pension liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.	(2,196,104)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds to the Statement of Activities
For the year ended September 30, 2023

Amounts reported for governmental activities in the statement of activities are different because:

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 313,183
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.	
This is the amount of capital assets recorded in the current period. This is the amount of depreciation expense recorded in the current period.	4,137,829 (1,022,495)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	
This is the increase in the fair value of the City's investment in real property.	20,000
Revenue not received within the "availability" period are not reported as revenues at the fund level and are recognized as revenue in the statement of activities. This represents the change caused by the "availability" criterion.	40,715
Long-term obligations including bonds and notes payable, compensated absences and other postemployment benefit liabilities are reported as liabilities in the government-wide statement of net position but are not reported as liabilities in the governmental funds because they do not require the use of current financial resources: This is the principal paid on leases payable during the year. This is the change in accrued compensated absences during the year.	2,375 (56,918)
This is the change in the total OPEB liability during the year.	48,692
Pension expense is reported in the statement of activities which differs from pension expenditures as reported in the governmental funds:	
This amount represents the change in the net pension asset. This amount represents the change in deferred inflows related to pensions. This amount represents the change in deferred outflows related to pensions. This amount represents the change in the net pension liability.	(1,179,649) 950,204 1,441,563 (1,389,884)

The City's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its statements (GASBS) and interpretations (GASBI). The more significant accounting policies established in GAAP and used by the City are discussed below.

REPORTING ENTITY - The City of Lake Alfred, Florida (the "City") is a municipal corporation governed by a board of five (5) elected commissioners and was created in 1915. In 1925 the City adopted its charter under Florida law and was re-created in Polk County in 1973 by Chapter 73-514, Laws of Florida.

As required by GAAP, the accompanying financial statements present the City's primary government and component units based on the financial burden/benefit criteria in GASB Cod. Sec. 1200. The City has one blended component unit, the Lake Alfred Community Redevelopment Agency (the "CRA") which was created by City Ordinance 1335-14 pursuant to Chapter 163, Florida Statutes and whose governing board is the same as the City Commission. Blending refers to the fact that the component unit's funds are combined with those of the primary government for financial reporting purposes. The CRA is presented in the financial statements of the City as a special revenue fund. The CRA issues a separate publicly available financial report which may be obtained by contacting the City's finance department.

These financial statements include the accounts and transactions of the following entities, which do not satisfy the definition of component units because they are not legally separate from the City:

- City of Lake Alfred Police Officers' and Firefighters' Retirement System established pursuant to Florida Statute Chapters 175 and 185 and Ordinance No. 778.
- City of Lake Alfred General Employees Retirement System which was created by City Ordinance No. 911.

The Police Officers' and Firefighters' Retirement System and General Employees' Retirement System issue separate publicly available financial reports which may be obtained by contacting the City's finance department.

BASIS OF PRESENTATION - The basic financial statements consist of the government-wide financial statements and fund financial statements.

Government-wide financial statements - The required government-wide financial statements are the Statement of Net Position and the Statement of Activities, which report information on all the nonfiduciary activities of the City. In general, the effects of interfund activity have been removed from these statements except for interfund costs that are reasonably equivalent in value to the interfund services provided. Elimination of these charges would distort the direct costs reported for the various functions concerned. Fiduciary funds are also excluded from the government-wide financial statements since these assets are being held for the benefit of a third party and cannot be used to fund activities or obligations of the government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment, including depreciation.

The City does not allocate the interest expense of governmental fund debt. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements - The financial transactions of the City are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, deferred inflows and outflows of resources, fund equity, revenues and expenditures/expenses. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. GASB Code Section 2200 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. Non-major funds by category are summarized into a single column. The various funds are reported by type within the financial statements. The following describes the fund types and funds used and reported by the City.

Funds are classified into three categories: governmental, proprietary and fiduciary. The funds used by the City are as follows:

Governmental Funds - The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

Major governmental funds:

- General Fund: The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
- Impact Fee Special Revenue Fund: In response to the requirements of Section 163.31801, Florida Statutes, this fund was created to account for the financial transactions of the City impact fees other than water and sewer impact fees, which are accounted for in the enterprise fund.

Non-major governmental funds – These funds do not meet the major fund criteria set forth in GASB Cod. Sec 2200.

- American Rescue Plan Grant Special Revenue Fund: This fund was established to account for the collection and expenditure of the Coronavirus State and Local Recovery funds, a part of the American Rescue Plan Act.
- Community Redevelopment Fund: The City of Lake Alfred Community Redevelopment Agency (the "CRA") was created by City Ordinance 1335-14 pursuant to Chapter 163, Florida Statutes. The CRA has the power to levy taxes or appropriate funds to preserve and enhance the designated CRA district. The CRA receives incremental ad valorem taxes generated in future years by the increase in property values in the redevelopment area. The CRA's property taxes are levied under the taxing authority of the City and are included as part of the City's total tax levy. The CRA's Board members consist of the City Commission and two appointed citizens.

Proprietary Funds - The focus of proprietary fund measurement is based upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the City:

The City has one Enterprise Fund which accounts for the activities associated with providing water, sewer
and stormwater services to area residents and businesses.

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges, or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

Fiduciary Funds - Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support City programs. The reporting focus is on net position and changes in net position and are reported using accounting principles similar to proprietary funds. The City's fiduciary funds are presented in the fiduciary fund financial statements by type. Since these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The City reports the following fiduciary funds:

- Pension Trust Funds: The City has two pension trust funds which accumulate resources to provide retirement benefits to City employees. The two pension trust funds are the City of Lake Alfred Police Officers' and Firefighters' Retirement System and the General Employees' Retirement System.
- Custodial Fund: The custodial fund is to account for impact fees collected on behalf of Polk County, Florida (the "County"). These funds are collected on behalf of the County as new construction takes place within the City and remitted to the County monthly.

MEASUREMENT FOCUS, AND BASIS OF ACCOUNTING

The government-wide financial statements, the proprietary fund financial statements and the fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses recorded when a liability is incurred, regardless of the timing of related cash flows. Imposed nonexchange resources (property taxes, fines) are reported as deferred inflows if received before the tax is levied or before the date when use is first permitted. Government mandated nonexchange transactions and voluntary nonexchange transactions resources are reported as liabilities until the eligibility requirements are met and as deferred inflows if received before time requirements are met.

Operating revenues shown for proprietary operations generally result from producing or providing goods and services such as water, sewer and stormwater management. Operating expenses for these operations include all costs related to providing the service or product. These costs include billing and collection, personnel and purchased services, repairs and maintenance, depreciation, materials and supplies, and other expenses directly related to costs of services.

All other revenue and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within 60 days of the end of the current fiscal period. Revenues received prior to meeting the available criterion are reported as deferred inflows. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise and public service taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual as revenue of the current period. Property taxes are billed and collected within the same period in which the taxes are levied. Grant revenues are considered earned and are accrued simultaneously with the grant expenditure. All other revenue items are considered to be measurable and available only when cash is received by the government.

ASSETS, LIABILITIES, DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES AND NET POSITION OR FUND BALANCE

CASH AND CASH EQUIVALENTS - The City maintains a pooled cash account that is available for use by all operating funds of the City. In addition, deposits and investments are separately held by several of the City's funds and the pension trust funds. Amounts, if any, reported as deficits in cash and cash equivalents do not represent actual overdrawn balances in any bank account, but merely report a negative cash balance in the particular fund. For purposes of the statement of cash flows, the enterprise fund considers all cash, certificates of deposit and highly liquid investments, including overnight repurchase agreements, both restricted and unrestricted, to be cash equivalents.

INVESTMENTS - The types of investments in which the City may invest surplus funds are governed by State Statutes. According to State Statutes, the City is authorized to invest in the following instruments: Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized through the Florida Inter-local Cooperation Act; S.E.C. registered money market funds with the highest credit quality rating from a nationally recognized rating company; interest-bearing time deposits and savings accounts in qualified public depositories; and direct obligations of the U.S. Treasury.

The City pension trust funds are also authorized by City Ordinances to invest in such securities, investment vehicles or property as shall be approved by the individual pension's Board of Trustees, including but not limited to common or preferred stock, bonds, other evidence of indebtedness or ownership and collective or group trusts subject to certain limitations. There were no violations of legal or contractual provisions for deposits and investments during the year.

Investments are reported at fair value or amortized cost, which approximates fair value. Purchases and sales of investments are reflected on trade dates. Net realized gains or losses on sales of investments are based on the cost of investments applied on a first-in, first-out basis and are reflected in current operating results.

CUSTOMER ACCOUNTS RECEIVABLE - The City accrues the unbilled service of its enterprise fund which represents the estimated value of service from the last billing date to year end which totaled \$71,466 on September 30, 2023. reserve for doubtful accounts is maintained in the enterprise fund equal to the value of the receivables at year end that are not expected to be collected. As of September 30, 2023, such reserves totaled \$722.

INTERFUND RECEIVABLES AND PAYABLES - To the extent any interfund balances exist, management anticipates they will be settled in cash as opposed to a permanent transfer.

INVENTORIES - Inventories in governmental and enterprise funds consist of expendable supplies held for consumption and are expensed when purchased and are valued at cost using first-in/first-out (FIFO) method.

PREPAID ITEMS - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

CAPITAL ASSETS - In the government-wide financial statements capital assets include land, buildings, improvements, utility plant, infrastructure and furniture and equipment. Governmental fund infrastructure assets (e.g., roads, bridges, sidewalks, streets, drainage systems and lighting systems) acquired prior to October 1, 2003, have not been reported. Capital assets are defined by City resolution as tangible property or improvements with an individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost, if purchased, and at acquisition value at date of gift, if donated. Major additions are capitalized while maintenance and repairs which do not improve or extend the life of the respective assets are charged to expense.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Capital asset depreciation is recognized using the straight-line method over the following estimated useful lives:

Years
20-40
15-40
5-20
20-75
10-20

RESTRICTED ASSETS - Include cash and investments that are legally restricted to specific uses by external parties. The City generally uses unrestricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

LONG-TERM OBLIGATIONS - In the government-wide financial statements and proprietary fund types, fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Debt issuance costs are reported as expenses in the period incurred. Bond premiums and discounts are reported, net of amortization, in the related debt balances shown in the financial statements.

For current refundings and advance refundings resulting in defeasance of debt reported by governmental activities, business-type activities, and proprietary funds, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is the shorter.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements; rather the debt proceeds are reported as other financing sources and payments of principal and interest are reported as expenditures.

INTEREST DURING CONSTRUCTION - Interest costs incurred before the end of a construction period is a financing activity separate from the related capital asset and interest costs incurred before the end of the construction period are recognized as an expense in the period in which the cost is incurred. These interest costs are not capitalized as part of the historical cost of the capital asset.

CONNECTION FEES AND IMPACT FEES - Connection fees represent reimbursement of the costs incurred to perform the connection of the respective utilities and are recorded as operating revenue when received. Impact fees, which are not considered connection fees since they substantially exceed the cost of connection, are recorded as capital contributions when received. Prepaid impact fees received which reserve capacity in the City's future water or wastewater facilities are deferred and reported as capital contributions when the requirements of the developer agreements are met by the City.

COMPENSATED ABSENCES - The City's policies permit employees to accumulate vacation, sick and compensatory time up to certain limits and to be compensated for these upon termination of employment. The liability for these compensated absences is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

INTERFUND TRANSFERS - Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers.

ON-BEHALF PAYMENTS FOR FRINGE BENEFITS - The City receives on-behalf payments from the State of Florida to be used for the Lake Alfred Police Officers' and Firefighters' Retirement System which totaled \$102,141 for the year ended September 30, 2023. Such payments are recorded as operating grants for the police and fire programs and public safety expenses/expenditures in the government-wide and general fund financial statements.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has one item that qualifies for reporting as deferred outflows of resources which is the deferred outflows related to pensions.

The deferred outflows related to pensions are an aggregate of the items related to pensions as calculated in accordance with GASB Cod. Sec. P20 and will be recognized as either pension expense or a reduction in the net pension liability in future reporting years.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The City has three items that qualify for reporting as deferred inflows of resources. The first item of deferred inflows of resources is reported in the governmental funds balance sheet and represents unavailable revenues. This type of deferred inflows only arises under the modified accrual basis of accounting. The second item is deferred inflows related to pensions. The deferred inflows related to pensions are an aggregate of the items related to pensions as calculated in accordance with GASB Cod. Sec. P20 and will be recognized as a reduction to pension expense in future reporting years. The final item is deferred inflows related to leases which is the total unrecognized revenue to be received from the City's antenna placement leases.

EQUITY CLASSIFICATIONS -

Government-wide and Enterprise Fund Statements - The difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources is classified as net position and displayed in three components:

<u>Net investment in capital assets</u> - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

	Governmental		В	usiness-type		
		Activities		Activities		Activities
Capital assets, net	\$	17,362,559	\$	15,462,062		
Less:						
Construction costs payable		(228,168)		(94,640)		
Long-term debt related to capital assets		-		(1,217,822)		
Leases payable		(19,039)		-		
Net investment in capital assets	\$	17,115,352	\$	14,149,600		

<u>Restricted net position</u> - Consists of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

<u>Unrestricted net position</u> - Consists of the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Fund Balance Classification in Governmental Fund Statements - The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

<u>Non spendable</u> - This classification includes amounts that cannot be spent because they are either (a) not in spendable form such as inventories, prepaid items and noncurrent receivables (including interfund due froms) or (b) are legally or contractually required to be maintained intact. The City has non spendable fund balance representing prepaid expenditures and interfund advances.

<u>Restricted</u> - This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The City has classified building fees and police education fines and forfeitures as being restricted because their use is restricted by State Statute. The City has also classified its various impact fees and sanitation equipment fees as restricted as their use is restricted by local ordinances. Debt service resources are to be used for future servicing of the revenue notes and are restricted through debt covenants. Resources provided for capital projects are classified as restricted when the resources for the projects are restricted by the grantor (eg. Federal, State or local governments) for funding of specific projects.

<u>Committed</u> - This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action (ordinance) of the City Commission. These amounts cannot be used for any other purpose unless the City Commission removes or changes the specified use by taking the same type of action (ordinance) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The City did not have any committed resources as of September 30, 2023.

<u>Assigned</u> - This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Commission or through the City Commission delegating this responsibility to the City Manager through the budgetary process. As of September 30, 2023, the City had assigned resources to be used for future capital outlay and the subsequent years' budget.

<u>Unassigned</u> - This classification represents the residual amount for the general fund that is not constrained in the other classification. The general fund is the only fund that reports a positive unassigned fund balance.

The details of the components of fund balances are included in the governmental fund balance sheet. The City uses restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

The City has established by resolution, a targeted minimum level of unassigned and assigned fund balance equal to 17% or more of the general fund's regular annual operating expenditures as reported in the City's subsequent year's budget. Under this resolution, regular operating expenditures are equal to total expenditures less capital outlay and debt service expenditures. Should unassigned and assigned fund balance fall below the targeted level, the City Manager shall implement a plan through the budgetary process to reach the targeted fund balance amounts in a reasonable timeframe not to exceed five fiscal years. The City met this requirement as of September 30, 2023.

LEASES:

Lessee: The City is a lessee for a noncancellable lease of equipment. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor: The City is a lessor for several noncancellable antenna placement leases. The City reports a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset, receivable, liability and/or deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease liability.

NOTE 2 - PROPERTY TAX CALENDAR

Under Florida Law, the assessment of all properties and the collection of all county, municipal and school board property taxes are consolidated in the offices of the County Property Appraiser and County Tax Collector. The tax levy of the City is established by the City Commission prior to October 1 of each year and the Polk County Property Appraiser incorporates the millage into the total tax levy, which includes the municipalities, the County, independent districts and the County School Board tax requirements. State statutes permit cities to levy property taxes at a rate of up to 10 mills. The City's millage rate in effect for the fiscal year ended September 30, 2023 was 6.9890.

All taxes are due and payable on November 1 (levy date) of each year and unpaid taxes become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment as follows: 4% in of November, 3% in December, 2% in January, 1% in February. The taxes paid in March are without discount. Delinquent taxes on real and personal property bear interest of 18% per year. On or prior to June 1 following the tax year, certificates are sold for all delinquent taxes on real property.

NOTE 3 - BUDGETARY LAW AND PRACTICE

The budget is adopted by Ordinance on a City-wide basis for most City funds on or before October 1 of each year as required by State Statute. Special revenue funds with no expected expenditures are not included in the budget. City Ordinance establishes the legal level of budgetary control at the individual fund level. Expenditures may not exceed appropriations at this level. Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE 4 - DEPOSITS AND INVESTMENTS

DEPOSITS IN FINANCIAL INSTITUTIONS - All of the City's deposits are held in qualified public depositories pursuant to Florida Statutes, Chapter 280, Florida Security for Public Deposits Act. Under the Act, all qualified public depositories are required to pledge collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits, times the depository's collateral pledged level. The pledging level may range from 50% to 200% depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessments against other qualified public depositories of the same type as the depository in default.

The captions on the government-wide statement of net position for "cash and cash equivalents", both restricted and unrestricted, were comprised of the following:

Cash and cash equivalents:

Total cash and investments	Ş	14,992,763
FL SAFE Stable NAV Fund		4,121,105
State Board of Administration - local government pool		4,563,419
Insured or fully collateralized bank deposits		6,307,639
Cash deposits in financial institutions:		
Cash on hand	\$	600

The State Board of Administration (SBA) component of cash and cash equivalents is an investment with Florida PRIME, an investment pool administered by the SBA, under the regulatory oversight of the State of Florida. FL SAFE Stable NAV Fund is a intergovernmental investment pool like a money market investment in that is strives to maintain a net asset value of \$1.00 per share. Florida PRIME and the FL SAFE Stable NAV Fund meets all the necessary criteria to report their investments at amortized cost in accordance with GASB Cod. Sec. In5.

NOTE 4 - DEPOSITS AND INVESTMENTS (cont...)

As of September 30, 2023, there were no redemption fees, maximum transaction amounts or any other requirements that serve to limit the City's access to one hundred percent of their account value. The fair value of the City's position in the pools is the same as the value of the pool shares.

INVESTMENTS - FAIR VALUE - The City categorizes its fair value measurements within the fair value hierarchy established by GASB Cod. Sec. 3100. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

INVESTMENT IN REAL PROPERTY - The City owns land that is reported as an investment in accordance with GASB Cod. Sec. I50. The City's investment in real property is reported at a fair value of \$950,000 on September 30, 2023. This value was determined by an analysis of the property by a real estate appraiser which is considered a Level 3 input based upon the fair value hierarchy.

The investment securities held by the City and the City's pension trust funds have the following carrying values as of September 30, 2023, based upon the measurement criteria as specified.

City:

·	Sept	ember 30,			
		2023	Level 1	Level 2	Level 3

NOTE 4 - DEPOSITS AND INVESTMENTS (cont...)

General Employees' Pension Trust Fund: The general employees' pension trust fund is a participating member of the FMPTF. All assets with the FMPTF are invested through the Florida Municipal Investment Trust (FMIvT) for the benefit of the participating members. The FMIvT, administered by the Florida League of Cities, Inc., is an interlocal governmental entity created under the laws of the State of Florida as a local government investment pool and is considered an external investment pool for GASB purposes and; therefore, the City is not required to categorize the positions in the pool within the fair value hierarchy as established by U.S. GAAP. The City's business-type activities also has investments with the FMIvT. Redemptions from the FMIvT are permitted monthly upon advance written notification.

NOTE 6 – LEASES

Lease Receivable – The City reports two lease receivables related to antenna lease agreements originally executed in 2000. The lease terms were originally for an initial 5-year period with the option of 4 separate 5-year renewal periods thereafter. The lease term for each of these leases was originally 25 years ending in 2025 and one of the leases has been amended to extend the lease term to 2054. The City receives annual payments which are increased each year by 3% to 5% and the City recognized \$57,087 in lease revenue and \$35,922 in interest revenue during the fiscal year related to these two leases. On September 30, 2023, the City's receivable for lease payments was \$1,457,572. Also, the City has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. On September 30, 2023, the balance of the deferred inflow of resources was \$1,384,455.

Lease Payable – In 2022, the City entered into a 63-month agreement as lessee for the acquisition and use of several multifunction copiers. The City is required to make monthly principal and interest payments of \$690 and maturing in July 2027. The City utilized the interest rate implicit in the lease agreement of 29% to determine the lease liability. The book value of this right-to-use asset as the end of the current fiscal year is \$15,871 and is being amortized on a straight-line basis over a 63-month term from the lease origination date (45 months remaining on September 30, 2023).

The future principal and interest lease payments as of September 30, 2023, were as follows:

	G	Governmental Activities					
Fiscal Year Ending	Pri	ncipal	In	terest			
2024	\$	3,161	\$	5,116			
2025		4,209		4,068			
2026		5,604		2,674			
2027		6,065		834			
Total	\$	19,039	\$	12,692			

NOTE 7 - LONG-TERM OBLIGATIONS

The following is a summary of changes in long-term obligations for the year ended September 30, 2023:

NOTE 7 - LONG-TERM OBLIGATIONS (cont...)

Notes to Long-Term Obligations Table

Long term liabilities, including accumulated compensated absences, OPEB liabilities and the City's net pension liabilities, are typically liquidated by the general fund or the enterprise fund, depending upon which individual fund to which the liability is directly associated.

All of the City's long-term debt arose through direct borrowings or direct placements.

Business-type Activities:

• Series 2012 and Series 2008A Notes - The Series 2012 notes were issued September 6, 2012 in the exact principal amount \$2,358,619 of the then outstanding balance of the Series 2008A notes, effectively replacing the 2008A notes with the 2012 notes. Both the lender and the maturity date of October 1, 2023 remained the same. The carrying amount and reacquisition price of the 2008A notes were the same on the date of refunding. The average interest rate on the 2012 notes is 2.37% and was 4.20% on the 2008A notes resulting in a cash flow savings to maturity of \$272,790 and a discounted cash flow savings to maturity (economic gain) of approximately \$238,000. The Series 2012 note is secured by a senior lien on the revenues of the water and sewer systems and contains a requirement to maintain a minimum debt service coverage ratio of 1.2. The retired 2008A note proceeds were used to retire debt whose proceeds were originally used to finance improvements primarily to the sewer system.

In the event of default, the lender has the right to take whatever legal actions are necessary to collect the amounts due and may declare the entire indebtedness due and payable.

Installment Notes to DEP:

- Installment Note to DEP (WW 719090) This note, in the original amount of \$5,143,530, is secured by a subordinate lien on the water and sewer revenues and bears interest at 2.205%, with semiannual principal and interest payments of \$157,823 on July 15 and December 15 and continuing to maturity in January 2027. The note proceeds used to fund expansion of the wastewater treatment facility.
- o Installment Note to DEP (DW 530510) The original note payable was for planning activities related to the design and construction of a new water production facility and totaled a maximum \$27,500 loan. This loan has been amended to include the design phase of the water production facility which added an additional \$603,438 to the maximum loan amount. This installment note includes an immediate principal forgiveness grant of 50% of the funds drawn by the City. The note is secured by a subordinate lien on the water and sewer revenues and bears interest at 1.33%, with semi-annual principal and interest payments beginning in the fiscal year ending September 30, 2024. As of September 30, 2023, \$201,754 has been drawn on this loan and \$100,877 has been forgiven resulting in a year-end balance due on this note of \$100,877.

NOTE 7 - LONG-TERM OBLIGATIONS (cont...)

Notes to Long-Term Obligations Table (cont...)

Installment Notes to DEP (continued)

In the event of default and subject to the rights of superior liens on the pledged revenues, the lender may request a court to appoint a receiver to manage the water and sewer systems, intercept the delinquent amount from any unobligated funds due to the City under any revenue or tax sharing fund established by the State of Florida, impose a penalty in the amount not to exceed a rate of 18 percent per annum on the amount due, notify financial market credit rating agencies and potential creditors, sue for payment of amounts due and may accelerate the repayment schedule or increase the interest rate on the unpaid principal on the loan to as much as 1.667 times the loan interest rate.

Pledged Revenues:

The following table provides a summary of the pledged revenues for the City's outstanding debt issues. Additional information regarding the City's pledged revenue can be found in the preceding sections of this note:

					Percentage of Net
	Revenue	Total Principal	Current Year		Revenues to
	Pledged	and Interest	Principal and	Current Year	Principal and
Pledged Revenue	Through	Outstanding	Interest Paid	Net Revenue	Interest Paid
Water and sewer revenue	1/15/2027	\$ 1,269,681	\$ 554,089	\$ 1,820,060	328%

Maturities:

Annual requirements to repay all long-term bonds and notes payable as of September 30, 2023, were as follows:

	Business-type Activities				
Fiscal Year Ending	Pi	rincipal	Int	terest	
2024	\$	384,764	\$	25,286	
2025		334,463		15,977	
2026		341,568		8,872	
2027		157,027		1,724	
Total	\$	1,217,822	\$	51,859	

NOTE 8 - INTERFUND TRANSACTIONS

Interfund transfers for the year ended September 30, 2023, consisted of:

Receiving Fund	Paying Fund	 mount
General Fund	Enterprise Fund	\$ 682,048
General Fund	American Rescue Plan Grant Special Revenue Fund	3,133,841

The transfer from the enterprise fund to the general fund is a budgeted transfer. The transfer from the American Rescue Plan (ARPA) Grant Special Revenue Fund was in connection with the utilization of the ARPA State and Local Fiscal Recovery Funds to pay for governmental activities incurred in the general fund in the prior fiscal year.

NOTE 8 - INTERFUND TRANSACTIONS (cont...)

Interfund assets and liabilities on September 30, 2023 consisted of the following:

Receivable Fund	Payable Fund	 Amount
General Fund	Enterprise Fund	\$ 2,396,000

Effective on October 17, 2022, the City Commission passed Resolution 19-22 that authorized the enterprise to borrow \$2,500,000 from the general fund to pay for utility infrastructure. The loan is to be repaid at an annual interest rate of 3.75% over a maximum of ten years with principal and interest due semiannually in November and May of each year. Annual requirements to repay this interfund loan as of September 30, 2023, were as follows:

Fiscal Year Ending	Principal	Interest
2024	\$ 214,000	\$ 87,863
2025	222,000	79,763
2026	231,000	71,363
2027	240,000	62,606
2028	248,000	53,531
2029-2033	1,241,000	119,213
Total	\$ 2,396,000	\$ 474,339

NOTE 9 - PENSION TRUST FUNDS

<u>Plan Descriptions</u> - The City of Lake Alfred contributes to two single-employer defined benefit pension plans: The General Employees Retirement System and the Police Officers' and Firefighters' Retirement System. Each plan provides retirement and disability benefits to plan members and beneficiaries. The plans are established by City Ordinance and the benefits and contribution requirements can be amended by the City Commission through ordinance. Both plans are administered by separate boards of trustees who are either appointed by the City Commission or elected by plan members. It is the City's policy to annually fund the annual required contribution amount for each plan. Contributions are also provided to the Police and Fire plan by the State of Florida from a tax collected on insurance premiums. Each plan issues a publicly available financial report that includes financial statements and required supplementary information (RSI) for that plan. Those reports may be obtained by contacting the City of Lake Alfred Finance Department at 155 E. Pomelo Street, Lake Alfred, FL 33850. The Plans' fiduciary net position has been determined on the same basis used by the individual pension plans.

On October 17, 2022, the City of Lake Alfred City Commission adopted Ordinance 1499-22 which closed the General Employees' Pension Trust Fund to new entrants effective January 1, 2023. Any general employee hired after the effective date shall participate in a defined contribution plan and are not eligible to participate in the Plan. On or before March 31, 2023, each member of the Plan had the option to transfer the greater of the actuarial present value of the frozen accrued benefit or their accumulated contributions to the defined contribution plan or choose to stay in the Plan and continue to accrue benefits.

<u>Basis of Accounting:</u> The General Employees Retirement System and the Police Officers' and Firefighters' Retirement System financial statements are prepared using the accrual basis of accounting. All costs of administering the Plans are paid out of the individual Plans' funds. Benefit payments, including refunds of employee contributions, are reported as expenses when the benefit is currently due and payable in accordance with the benefit terms.

<u>Benefits</u> - The City's pension plans provide retirement and disability benefits. Benefits for all members vest after 10 years of service. Retirement benefits for general employee members are calculated at 2.72% of average compensation of the best 5 years of the preceding 10 years multiplied by years of creditable service. Normal retirement is the earlier of age 60 with 5 years of service (if attained prior to October 1, 2011) or age 59 with 12 years of service. Benefits for police officers and firefighters are calculated at 3.00% of average compensation of the best 5 years of the preceding 10 years multiplied by years of creditable service. Normal retirement is the earlier of age 55 with 10 years of service or attainment of age 52 with 25 years of credited service. Both plans offer early retirement at reduced benefits.

<u>Contributions</u> — It is the City's policy to annually fund the actuarially determined required contributions representing the difference between the actuarially determined amount and the contributions of plan members and the State of Florida in the case of the Police Officers' and Firefighters' plan. Contribution rates and other information for the year ended September 30, 2023 is presented below:

	G	General		e Officers'
	Em	ployees'	and Firefighters' Pension	
	Pe	ension		
	Trust Fund		Trust Fund

<u>Actuarial Assumptions</u> – The actuarial valuation date and significant actuarial assumptions used to measure the total pension liability on September 30, 2022 were as follows:

	General	Police Officers'
	Employees'	and Firefighters'
	Pension	Pension
	Trust Fund	Trust Fund
	October 1, 2021 updated to	October 1, 2021 updated to
Actuarial valuation date	September 30, 2022	September 30, 2022
Inflation	3.00%	2.50%
Projected salary increases	Service Based	Service Based
Investment rate of return	7.15%	7.00%
Discount rate	7.15%	7.00%
Date of actuarial experience study	June 15, 2020	June 15, 2020

Mortality rates were based on The Society of Actuaries' Retirement Plan Experience Committee (RPEC) Pub-2010 Public Retirement Plans Mortality Tables Report.

<u>Long-term Expected Rate of Return on Pension Plan Investments</u> - Best estimates of arithmetic real rates of return for each major asset and the pension plans' target asset allocations as of September 30, 2023, are summarized in the following table.

General Employees' Pension Trust Fund:

Long-term	
Expected Real	Target Asset
Rates of Return	Allocations
2.50%	15.00%
2.80%	15.00%
7.10%	25.00%
8.60%	14.00%
8.20%	21.00%
6.50%	10.00%
	Expected Real Rates of Return 2.50% 2.80% 7.10% 8.60% 8.20%

Police Officers' and Firefighters' Pension Trust Fund:

	Long-term	
	Expected Real	Target Asset
Asset Class	Rates of Return	Allocations
Domestic Equity	7.50%	50.00%
International Equity	8.50%	15.00%
Broad Market Fixed Income	2.50%	30.00%
Global Fixed Income	3.50%	5.00%

<u>Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions</u> - For the year ended September 30, 2023, the City recognized total pension expense of \$581,204 consisting of pension expense for the General Employees' Retirement System of \$339,954 and \$241,250 for the Police Officers' and Firefighters' Retirement System. On September 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions, combined and individually for both plans, was as follows:

Combined All Pension Trust Funds:

Combined All Pension Trust Funds:					
		Deferred	D	eferred	
	С	Outflows of		Inflows of	
Description		Resources	Resources		
Differences between expected and actual experience	\$	148,594	\$	29,672

Net difference between expected and actual earnings on Plan investments		1,573,095		-	
City contributions subsequent to the measurement date		365,092		-	
Total Combined All Pension Trust Funds	\$	2,141,605	\$	58,446	
General Employees' Pension Trust Fund:					
		Deferred	D	eferred	
	C	Outflows of Resources		flows of	
Description				Resources	
Differences between expected and actual experience	\$	19,054	\$	29,672	
Change in assumptions	*	54,824	*		
Net difference between expected and actual earnings on Plan investments		738,056		_	
City contributions subsequent to the measurement date		209,562		_	
Total General Employees' Pension Trust Fund	\$	1,021,496	\$	29,672	
Police Officers' and Firefighters' Pension Trust Fund:					
		Deferred	D	eferred	
	Outflows of		In	flows of	
Description		Resources	Re	sources	
Differences between expected and actual experience	\$	129,540	\$	_	
Change in assumptions		-		28,774	
Net difference between expected and actual earnings on Plan investments		835,039		-	
City contributions subsequent to the measurement date		155,530		-	
Total Police Officers' and Firefighters' Pension Trust Fund	\$	1,120,109	\$	28,774	

Deferred outflows of resources related to City contributions subsequent to the measurement date of September 30, 2022 will be recognized as a reduction of the net pension liability in the year ended September 30, 2024. Other amounts reported as deferred inflows and outflows of resources will be recognized in pension expense in the years and amounts shown below:

		Police	
	General	Officers' and	
	Employees'	Firefighters'	
Year ending	Pension	Pension	
September 30,	Trust fund	Trust fund	Total
2024	\$ 179,364	\$ 201,128	\$ 380,492
2025	188,042	204,120	392,162
2026	138,461	216,860	355,321
2027	276,395	313,697	590,092
Total	\$ 782,262	\$ 935,805	\$ 1,718,067

<u>Discount Rate</u> - A rate of 7.15% was used for the general employees' pension trust fund and a rate of 7.00% was used for the police and firefighters' pension trust fund to measure the total pension liability of each plan as of September 30, 2022, which is the measurement date for financial reporting purposes. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the actuarially determined contribution rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the Net Pension Liability to Changes in the Discount Rate</u> - The following presents the net pension liability(asset) of the City as of the measurement date (September 30, 2022), calculated using the discount rates discussed above for each plan, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate used by each plan.

	Current Discount	N	et Pension Lia	bility (/	Asset) at Meas	surem	ent Date	
	Rate	1%	1% Decrease Current Discount				1% Increase	
General Employees'	7.15%	\$	1,955,507	\$	1,028,539	\$	275,032

Change in City's net pension liability between measurement date and reporting date		\$	(176,845)	\$	12,839	\$	536,956

NOTE 10 - OTHER POST EMPLOYMENT BENEFITS

<u>Plan Description</u> – The Other Postemployment Benefits Plan (OPEB Plan) is a single employer defined benefit plan administered by the City. The OPEB Plan allows employees who retire and meet retirement eligibility requirements under the applicable City retirement plan to continue medical insurance coverage as a participant in the City's health insurance plan.

Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the City are eligible to participate in the City's healthcare and life insurance benefits. The City subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The City does not offer any explicit subsidies for retiree coverage. The OPEB Plan doesn't issue stand-alone financial statements and the OPEB Plan is not included in the annual report of a public employee retirement system or another entity.

There are currently 60 active plan members and 1 inactive plan members.

<u>Funding Policy</u> – OPEB Plan benefits are pursuant to the provisions of Section 112.0801, Florida Statutes. The City has not advance-funded or established a funding methodology for the annual other postemployment benefit (OPEB) costs or the OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis.

<u>Benefits Provided</u> – The benefits provided are the same as those provided for active employees. Spouses and dependents of eligible retirees are also eligible for medical coverage. All employees of the City who meet the eligibility requirements of the applicable City retirement plan are eligible to receive postemployment health care benefits. All retiree, spouse and dependent coverage is at the expense of the retiree.

NOTE 10 - OTHER POST EMPLOYMENT BENEFITS (cont...)

<u>Total OPEB Liability</u> – The City's total OPEB liability as of September 30, 2023 was determined by an actuarial valuation as of September 30, 2022 (the measurement date). The actuarial assumptions used in the September 30, 2022 valuation were as follows:

Inflation	2.50%
Salary Increases	2.50%
Discount Rate	4.77%
Initial Trend Rate	7.50%
Ultimate Trend Rate	4.00%
Year to Ultimate Trend Rate	52

Mortality rates were based on The Society of Actuaries' Retirement Plan Experience Committee (RPEC) Pub-2010 Public Retirement Plans Mortality Tables Report projected to the valuation date using projection scale MP-2019.

<u>Discount Rate</u> – The discount rate was based on a high-quality municipal bond rate of 4.77%, The high-quality bond rate was based on the measurement date of the S&P Municipal bond 20-year High Grade Rate Index as published by S&P Dow Jones Indices. The S&P Municipal 20-year High Grade Rate Index consists of bonds in the S&P Municipal bond Index with a maturity of 20 years. Eligible bonds must be rates at least AA by Standards and Poor's Ratings Services, As2 by Moody's or AA by Fitch. If there are multiple ratings, the lowest rating is used.

The OPEB Plan qualifies for the alternative measurement method in determining their total OPEB liability. Under the alternative measurement method, changes in the total OPEB liability are not permitted to be included in deferred outflows or inflows of resources related to OPEB. These changes will be immediately recognized through OPEB expense.

<u>OPEB Expense</u> – For the year ended September 30, 2023, the City recognized a negative OPEB expense of -\$50,555. <u>Changes in Total OPEB Liability:</u>

	Total
	OPEB
	 Liability
Reporting period ending September 30, 2022	\$ 469,104
Changes for the year:	
Service cost	61,406
Interest	12,743
Changes of assumptions	(127,354)
Benefit payments	 (12,248)
Net changes	 (65,453)
Reporting period ending September 30, 2023	\$ 403,651

NOTE 10 - OTHER POST EMPLOYMENT BENEFITS (concluded)

<u>Sensitivity of the Total OPEB Liability to changes in the discount rate</u> - The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	1% Decrease (3.77%)		count Rate (4.77%)	increase (5.77%)
Total OPEB liability	\$	451,821	\$ 403,651	\$ 362,775

<u>Sensitivity of the Total OPEB Liability to changes in the healthcare cost trend rates</u> – The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Healthcare Cost						
		Decrease % to 6.50%)		Trend Rates (4.00% to 7.50%)		1% Increase (5.00% to 8.50%)	
Total OPEB liability	\$	355,258	\$	403,651	\$	461,771	

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

NOTE 11 - SEGMENT INFORMATION FOR ENTERPRISE FUND

The City has outstanding debt secured by its water and sewer revenues. The water and sewer operations are accounted for in a single enterprise fund along with stormwater. Because many of the assets and liabilities of the enterprise fund are not separately identifiable with any one operating segment (e.g. cash, accounts receivable, accounts payable, etc.), it is not possible to present segment information disclosures for cash flows and some components of net position. Segment financial information that can be separately identified for the water and sewer operations as of and for the year ended September 30, 2023, is presented below:

	Water & Sewer System		
Condensed statement of revenues,			
expenses and changes in net position:			
Charges for services	\$	3,752,759	
Operating expenses		(2,261,115)	
Depreciation		(655,255)	
Operating income (loss)		836,389	
Investment income (loss), net		226,589	
Interest expense		(78,002)	
Other nonoperating revenue, net		4,913	
Impact fees and capital grants and contributions		4,865,521	
Transfers out		(682,048)	
Change in net position	\$	5,173,362	
Condensed statement of net position:			
Capital assets, net	\$	15,002,103	
Long-term notes payable	\$	1,217,822	
Net investment in capital assets	\$	13,784,281	

NOTE 12 - COMMITMENTS AND CONTINGENCIES

<u>Risk Management</u> - Commercial insurance protection with normal deductibles is in place to limit the City's exposure from losses arising from liability and property and equipment damages. There have been no significant reductions in coverage nor have settlement amounts exceeded the City's coverage during the year ended September 30, 2023 or the previous two years. The City's workers compensation coverage is provided through a non-assessable program; in the event the insurance company were declared insolvent, the City would only be responsible for its own claims and not the claims of other insured entities under the program.

<u>Litigation</u> - The City is contingently liable with respect to lawsuits and other claims which arise in the ordinary course of carrying out its public service. Management believes that any losses not covered by insurance which may ultimately be incurred as a result of the suits and claims will not be material, with the exception of attorney's fees which are not determinable.

<u>Unemployment Compensation</u> - The City has elected to reimburse the State directly for its unemployment claims rather than participate in the State insurance fund for this purpose. As a result, the cost for unemployment claims is deducted when paid. Such costs have been insignificant in the past and no provision for potential claims has been made in the financial statements.

<u>Construction Commitments</u> – The City has construction commitments of approximately \$1,823,516 as of September 30, 2023 related to water and sewer projects (\$1,604,028), general fund projects (\$182,200) and CRA projects (\$37,288)

NOTE 13 – JOINT VENTURE

<u>Background</u> - The Polk Regional Water Cooperative (PRWC) was created on April 1, 2016 by a interlocal agreement between the City of Lake Alfred, City of Auburndale, City of Bartow, City of Davenport, City of Eagle Lake, City of Fort Meade, City of Frostproof, City of Haines City, City of Lakeland, City of Lake Wales, City of Mulberry, Polk City, City of Winter Haven, Town of Dundee, Town of Lake Hamilton and Polk County in accordance with Chapters 163 and 373 of the Florida Statutes. These local government units are collectively considered the Member Governments. The PRWC is a separate legal entity organized under the laws of the State of Florida, and the Member Governments have no equity ownership in the PRWC.

The PRWC is devoted to encouraging the development of fully integrated, robust public water supply systems comprised of diverse sources managed in a manner that take full advantage of Florida's intense climatic cycles to ensure reliable, sustainable and drought resistant systems which maximize the use of alternative water supplies to the greatest extent practicable. The PRWC will evaluate, plan and implement water projects and coordinate partnerships with other water users.

<u>Membership fees</u> - The terms of the interlocal agreement require each Member Government to contribute their proportionate share of the PRWC's annual working capital needs which are established annually by a resolution of the PRWC's Board of Directors. For the year ended September 30, 2023, the total annual working capital needs of the PRWC was \$235,000 of which the City's proportionate share was \$2,915.

<u>Project Participation</u> - The City has agreed to be a project participant in the Southeast Wellfield, a new lower Floridan aquifer public supply wellfield located in southeast Polk. Project participants agree to receive potable water from the Project once completed. The Project is being funded through the PRWC using a combination of grants and loans and the ultimate debt service and operating costs of the project will be passed through to the Project participants through the water service charges which have not been determined as of the date of this report.

<u>Contact</u> - Complete financial statements of the PRWC may be obtained from the PRWC's Executive Director at 330 W. Church Street, P.O. Box 9005, Drawer CA01, Bartow, FL 33831-9005.

NOTE 14 – NEW ACCOUNTING GUIDANCE IMPLEMENTATION

During the fiscal year ended September 30, 2023, the City implemented the provisions of GASB Statement No. 96 — Subscription-Based Information Technology Arrangement. The objective of this Statement is to better meet the information needs of financial statement users by establishing uniform accounting and financial reporting requirements for subscription-based information technology arrangements (SBITAs), improving the comparability of financial statements among governments that have entered into SBITAs and to enhance the understandability, reliability, relevance and consistency of information about SBITAs. Under this Statement, a government generally should recognize a subscription liability and an intangible right-to-use subscription asset. Due to the immaterial nature of the City's SBITAs, adoption of the new guidance had no effect on the financial statements.

Required Supplementary Information

Notes to the Schedule of Changes in Net Pension Liability and Related Ratios - General Employees' Pension Plan

Changes of Assumptions:

For the measurement date September 30, 2023:

• The investment return assumption changed from 7.15% to 7.05% per year, net of investment related expenses.

For the measurement date September 30, 2022:

The investment return assumption changed from 7.25% to 7.15% per year, net of investment related expenses.

For the measurement date September 30, 2020:

- As a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the rates used
 in the Milliman's July 1, 2019 FRS valuation report for non-special-risk employees, with appropriate adjustments
 made based on plan demographics.
- Additionally, as a result of the experience study dated June 15, 2020, the following changes were made:
 - The investment return assumption changed from 7.50% to 7.25% per year, net of investment related expenses.
 - The assumed rate of individual increases was changed from a flat 6.0% per year to a service-based table with the first 5 years of employment at 7.0% per year, the next 5 years at 6.0% per year and for service beyond 10 years, 5.5%.
 - The assumed rates of retirement were changed to an age-based table with varying rates from age 55 to
 65.
 - The assumed rates of pre-retirement withdrawal were amended to better reflect anticipated experience.
 - The assumed rates of disability were reduced by 50% at all ages.

For the measurement date September 30, 2016:

As a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions
used by FRS.

Required Supplementary Information

Notes to the Schedule of Changes in Net Pension Liability and Related Ratios - Police Officers' and Firefighters' Pension Plan

Changes in Benefit Terms:

For measurement date September 30, 2019:

• The amounts reported as changes in benefit terms resulted from the provisions of Chapter 112.1816, Florida Statutes. Effective July 1, 2019, a death or disability for a firefighter due to the diagnosis of cancer or circumstances that arise out of the treatment of cancer will be treated as duty related.

For measurement date September 30, 2016:

• The benefit accrual rate was increased from 2.75% to 3.00% of average final compensation.

Changes of Assumptions:

For the measurement date September 30, 2020:

- As required by Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the rates used in Milliman's July 1, 2019 Florida Retirement System (FRS) valuation report for special risk employees, with appropriate adjustments made based on plan demographics.
- As a result of the June 15, 2020 experience study the following assumptions changes were made:
 - The investment rate of return assumption was reduced from 7.25% to 7.00%, net of investment related fees.
 - The assumed individual salary increases were changed from an age-based table to a servicebased table.
 - The assumed retirement age for those eligible for normal retirement is being changed to a 33.33% probability at first eligibility for normal retirement, 50% probability in second year of eligibility and 100% at 2 years after being first eligible for normal retirement. The assumption that members eligible for normal retirement on the valuation date will work one more year has been removed.
 - The assumed rates of pre-retirement withdrawal have been changed from an age-based to a service-based table.

For measurement date September 30, 2017:

- As a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions used by FRS.
- The investment rate of return was lowered from 7.50% to 7.25%

For measurement date September 30, 2016:

- As a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions used by FRS.
- The inflation assumption rate was lowered from 3.00% to 2.50%, matching the long-term inflation assumption utilized by the Plan's investment consultant.

September 30, 2014		204,413		205,381	96	58 1,098,65	18.69%

Significant methods and assumptions used in calculating the actuary determined contributions:

- Valuation Date: October 1, 2021 for fiscal year 2023 contributions.
- Actuarial Cost Method: Entry age normal actuarial cost method.
- Asset Valuation Method: All assets were valued at market value with an adjustment to uniformly spread actuarial investment gains and losses over a four-year period.
- Salary Increases: Salary increase assumptions are based on a service-based scale with 0-4 years of service at 7.0%, 5-9 years of service at 6.0% and greater than 9 years of service at 5.5%.
- Investment Rate of Return: 7.25% per year compounded annually, net of investment related expenses.
- Payroll Growth: None.
- Retirement Age: The retirement age assumption is assumed at age 55 to 56 to be 5%, age 57-58 at 30%, age 59-64 at 50% and greater than age 64 at 100%.
- The assumed rate of mortality are mandated by Chapter 2015-157, Laws of Florida. The rates are those
 outlined in the July 1, 2018 Florida Retirement System actuarial valuation report for non-special risk lives.
- Disability assumptions: Members becoming disabled during a given year is assumed at the following rates: age 25 to 45 0.03%; 45-55 0.11%; 55-65 0.45%; 65 and over 1.40%.
- Termination assumption table:

		Credited service (years)								
	Age									
_	Range	<u><5</u>	<u>5-14</u>	<u>15+</u>						
	<35	25%	17%	14%

September 30, 2014	151,695	151,695	-	659,279	23.01%

Significant methods and assumptions used in calculating the actuary determined contributions:

- Valuation Date: October 1, 2021 for fiscal year 2023 contributions.
- Actuarial Cost Method: Entry age normal actuarial cost method.
- Asset Valuation Method: All assets were valued at market value with an adjustment to uniformly spread actuarial investment gains and losses over a four-year period.
- Salary Increases: Salary increase assumptions are based on a service-based scale with 0-4 years of service at 5.75%, 5-14 years of service at 5.00% and greater than 14 years of service at 4.25%.
- Investment Rate of Return: 7.00% per year compounded annually, net of investment related expenses.
- Payroll Growth: 0.00%
- Retirement Age: Normal retirement is the earlier of 1) age 55 with 10 years of credited service or 2) age 52 and 25 years of credited service. The assumed retirement rate once a member is eligible for normal retirement is 33.33% when first eligible for normal retirement, 50.00% second year of eligibility and 100% thereafter.
- The assumed rates of mortality are mandated by Chapter 2015-157, Laws of Florida. The rates are those
 outlined in the July 1, 2019 Florida Retirement System actuarial valuation report for special risk lives.
- Termination and disability rate tables:

Financial Trends	
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Net Position by Component Changes in Net Position	
Fund Balances of Governmental Funds	
Changes in Fund Balances of Governmental Funds	•
Revenue Capacity	
These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	
Assessed and Estimated Actual Value of Taxable Property	
Direct and Overlapping Property Tax Rates	
Principal Property Taxpayers	
Property Tax Levies and Collections	•
Debt Capacity	
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Ratios of Outstanding Debt by Type	
Ratios of General Bonded Debt Outstanding	
Direct and Overlapping Governmental Activities Debt	
Legal Debt Margin	
Pledged-Revenue Coverage	•
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial statements take place.	•
Demographic and Economic Statistics	
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial statements relates to the services the City provides and the activities it performs.	
Principal Employers	
Full-time Equivalent City Government Employees by Function/Program	
Various Indicators by Function/Program	
Capital Asset Statistics by Function

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Commission City of Lake Alfred, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Lake Alfred, Florida as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise City of Lake Alfred, Florida's basic financial statements, and have issued our report thereon dated May 14, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Lake Alfred, Florida's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Lake Alfred, Florida's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Lake Alfred, Florida's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying schedule of findings and recommendations as item 2023-001 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and recommendations as item 2023-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Lake Alfred, Florida's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*

City Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the findings identified in our audit and described above. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

Honorable Mayor and Members of the City Commission City of Lake Alfred, Florida

We have examined the City of Lake Alfred, Florida's compliance with Section 218.415, Florida Statutes for the year ended September 30, 2023. Management is responsible for City of Lake Alfred, Florida's compliance with those specified requirements. Our responsibility is to express an opinion on City of Lake Alfred, Florida's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards required that we plan and perform the examination to obtain reasonable assurance about whether the City of Lake Alfred, Florida complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether City of Lake Alfred, Florida complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and meet our other ethical responsibilities in accordance with relevant ethical requirements related to the engagement.

Our examination does not provide a legal determination of City of Lake Alfred's compliance with the specified requirements.

In our opinion, City of Lake Alfred, Florida complied, in all material respects, with the aforementioned requirements of Section 218.415, Florida Statutes for the year ended September 30, 2023.

Brynjulfson CPA, P.A. Auburndale, Florida May 14, 2024

MANAGEMENT LETTER

Honorable Mayor and Members of the City Commission City of Lake Alfred, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Lake Alfred, Florida as of and for the fiscal year ended September 30, 2023 and have issued our report thereon dated May 14, 2024.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

Other Reports

We have issued the following reports and schedule in accordance with our audit.

- Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards.
- Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General.

Disclosures in those reports, which are dated May 14, 2024, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding annual financial report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. For the legal authority of City of Lake Alfred, Florida, see footnote A of the summary of significant accounting policies in the notes to financial statements.

Financial Condition and Management

Section 10.554(1)(i)5.a and 10.556(7), Rules of the Auditor General, requires us to apply appropriate procedures and communicate the results of our determination as to whether or not City of Lake Alfred, Florida has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit of the financial statements of the City of Lake Alfred, Florida, we determined that the City of Lake Alfred, Florida did not meet any of the specified conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor City of Lake Alfred, Florida's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Other Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material, but which warrants the attention of those charged with governance. In connection with our audit, we have no such findings.

Specific Information

Management has provided the specific information required by Section 218.39(3)(c), Florida Statutes in the separately published annual financial report of the City of Lake Alfred Community Redevelopment Agency for the year ended September 30, 2023.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, members of the City Commission, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND RECOMMENDATIONS FOR THE YEAR ENDED SEPTEMBER 30, 2023 CITY OF LAKE ALFRED, FLORIDA

2023-001: Bank Reconciliations

Criteria – Good internal control requires that a proper reconciliation between the City's bank statements and the related general ledger balances be performed monthly.

Condition - During our current audit we noted that the City bank accounts are not being reconciled properly and as a result, we identified several errors resulting in audit adjustments. Furthermore, the bank reconciliations being prepared were not being done in a timely manner and were often prepared months after the bank statement was first available.

Cause - Staff shortages.

Effect - Without a proper reconciliation between the City's bank statements and the related general ledger balances, there is no assurance that all cash transactions have been recorded nor any assurance that errors are identified and corrected in a timely manner.

Recommendation: We recommend that the activity posted to the City's bank accounts be monitored and reconciled monthly to provide assurance that the activity posted to the bank accounts and the related general ledger balances are correct.

View of Responsible Official: See accompanying letter of management's response.

2023-002: Procurement

Criteria – Effective procurement processes require preapproval of certain contracts and purchases that exceed an established dollar amount to ensure purchases are consistent with management's expectations and payments are within available resources. Per section 2-189(m) of the Code of Ordinances the City Manager shall issue rules and regulations that govern procurement, and these rules and regulations require written quotations for purchases greater than \$10,000.

Furthermore, good internal control over vendor disbursements should include a combination of segregation of duties, authorization, review and reconciliation procedures and these procedures should be documented and filed with evidence to support the payment. Proper documentation provides evidence of the legitimacy and accuracy of transactions and facilitates audit trials for review and verification.

Condition – During our audit we noted the following:

- Three vehicle purchases, one vehicle repair, and one sidewalk repair, all exceeding \$10,000, would be required to be supported by three written quotations, though no written quotations were provided.
- The internal control over internally generated disbursements (for instance contributions to City pension plans or payment of payroll taxes) are not being documented.
- A payment for materials exceeding \$25,000 lacked support from any quotations, and insufficient documentation was provided to ascertain the reasonableness of the payment.

Cause - Unknown.

SCHEDULE OF FINDINGS AND RECOMMENDATIONS FOR THE YEAR ENDED SEPTEMBER 30, 2023 CITY OF LAKE ALFRED, FLORIDA

2023-002: Procurement (cont...)

Effect – Without proper internal controls there is a higher risk of fraud, waste and abuse in the procurement process.

Recommendation: The City should enhance procedures to ensure that purchases of goods and services are made in accordance with the City's purchasing policy. Such procedures should require that, for every contract or purchase, quotations and bids are obtained as required and examined and the approval is documented. We further recommend the City document their internal controls over internally generated disbursements and enhance procedures to ensure no payment is made before adequate evidence and approval is obtained to support each purchase.

View of Responsible Official: See accompanying letter of management's response.

Ph.: (863) 291-5270

Fax: (863) 291-5317

120 E. Pomelo Street Lake Alfred, FL 33850-2135

Management's Response Letter to Auditor's Findings:

2023-001: Bank reconciliations

The city is actively searching for qualified individuals to work in the finance department. A significant investment has been made in new software that was brought online on December 4,2023. The software allows for transactions to be uploaded from the bank and can match transactions. The software implementation team is currently working with staff to set up a pooled cash system. Pooled cash will offer advantages in terms of efficiency, liquidity management, and cost management services, with sweep accounts to facilitate fund transfers and optimize liquidity. A bank reconciliation policy will be developed outlining the procedures to follow, roles and responsibilities, and protocols for resolving discrepancies.

2023-002: Procurement

As part of the City's search for qualified staff for the finance department. Finding someone with procurement experience is a priority. Finance will work with the departments to ensure there is a clear understanding of the policy and procedures regarding ordering supplies, receipt of goods, invoice processing and proper documentation for payment. Purchasing vehicles has become a challenge due to low inventory and long lead times creating an environment where vendors are slow or unwilling to respond with a verbal quote let alone a written one. As a result, staff has been writing in the verbal quotes and obtaining the written material from the selected vendor. Correction of this issue will simply be to mark vendors that only provide verbal quotes as nonresponsive or to provide a copy of the state contract that we are piggybacking. Regarding the documentation for pension and payroll taxes, the documentation is with the payroll documentation and not currently scanned into Laserfiche. In regard to the unsupported documentation on the purchase, this was a unique anomaly on the force main project wherein approval was given by the City Commission on a piggyback but this was later flagged by the City Attorney as being above the threshold to be piggybacked; we rebid the project but the first vendor had already purchased materials for job from the previous approval thereby creating a bifurcated project.

Respectfully submitted,

Ryan Leavengood City Manager

Amber Deaton Finance Director
