**Florida Municipal Pension Trust Fund – DB 70% Equity Allocation**  
**Executive Summary**  
*As of December 31, 2023*

**70% Equity Allocation**

- The US Fed held its benchmark rate steady in December and provided updated projections that drove optimism around the pace of 2024 rate cuts. Declining interest rate expectations fueled a rally in asset prices, and stocks and bonds both ended the year on a winning streak. Equity pricing is discounting a soft landing and a relatively brisk pace of cuts from the Fed, so the path of rates will be a key risk to equity prices in 2024. Real estate returns could continue to be challenged amid higher interest rates, tighter lending conditions, and reduced demand for office space. The 70% Equity Allocation achieved a strong absolute return in the fourth quarter but moderately trailed the Target Index (up 8.1% vs. up 8.9%).
- This allocation has nearly matched the performance of the Target Index over the past 5 years (up 9.3% vs. up 9.4%) and ranks in the top 23<sup>rd</sup> percentile of the public fund peer group.
- Over the past 10 years, this allocation is up 7.1% on average annually. While this performance is modestly behind the index, it ranks in the top 18<sup>th</sup> percentile of the peer group, with the risk controlled nature of many of the underlying strategies providing downside protection should the markets continue to moderate or decline.

**FMIvT Broad Market High Quality Bond Fund**

- The Broad Market High Quality Bond Fund modestly trailed the Bloomberg US Aggregate A+ Index in the fourth quarter (up 5.8% vs. up 6.5%). The Fund's underweight to investment grade credit posed a headwind in the fourth quarter, but has been prudent over the longer term as the Fund has outpaced the benchmark by over 60 basis points on average annually over the past 3 years and ranks in the top 39<sup>th</sup> percentile of its peer group of US fixed income managers.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

**FMIvT Core Plus Fixed Income Fund**

- The Core Plus Fixed Income Fund posted strong relative results in the fourth quarter, rising 7.8%). The fund benefited from continuing to hold an overweight to credit. However, with the US recession risk still in play as we move forward in 2024 the Fund has been stepping up in quality bias, favoring securitized over corporates and within corporates, financials over industrials. Over the last 3 years, the fund has outpaced the benchmark by over 420 basis points.
- In the 9 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 1.7% on average annually, ahead of the benchmark (up 0.5%).

**FMIvT Diversified Large Cap Equity Portfolio**

- The fund is allocated 60% to the SSgA S&P 500 Fund, and 20% each to the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund. This fund provides investors with exposure to core, value, and growth opportunities within the US large cap equity marketplace. The SSgA S&P 500 Fund replaced Intech in the fourth quarter.
- U.S. equities rebounded from the 3<sup>rd</sup> quarter difficulties with equity pricing discounting a soft landing and a relatively brisk pace of interest rate cuts from the fed. The underweight to the information technology and consumer discretionary sectors, and thus, being underweight to the Magnificent 7, was the biggest driver in the 4<sup>th</sup> quarter underperformance for the Diversified Large Cap Equity Portfolio (up 10.4% vs. up 12.0%).
- Over the trailing 5 years, the Diversified Large Cap Equity Portfolio has matched the performance of the Russell 1000 benchmark (both up 15.5%) and ranked in the top 41<sup>st</sup> percentile of its peer group of US large cap core equity managers.

**Florida Municipal Pension Trust Fund – DB 70% Equity Allocation**  
**Executive Summary**  
*As of December 31, 2023*

**FMIvT Diversified Small to Mid Cap Equity Fund**

- This strategy was challenged in the fourth quarter as higher risk/lower quality stocks rallied on lower interest rates to end the year, with the high-quality bias and negative stock selection hindering the performance. Despite these near-term difficulties, the Fund has outperformed the benchmark by over 500 basis points on average annually over the past 3 years.
- This strategy has generated very strong results over the past 10 years, rising 12.2% on average annually compared with 8.4% for the benchmark. Furthermore, the fund ranked in the top 8<sup>th</sup> percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

**FMIvT International Equity Portfolio**

- The FMIvT International Equity Portfolio rebounded in the fourth quarter, outpacing the MSCI ACWI ex US - Net benchmark by over 150 basis points and ranking in the top 27<sup>th</sup> percentile of its peer group of international equity managers. Strong stock selection in the industrials and technology sectors, coupled with an underweight to China, provided a boost to the portfolio to end the year.
- Despite some of the struggles over the past 3 years, the portfolio has outperformed the benchmark over the past 5 years (up 8.3% vs. up 7.1%).
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

**FMIvT Core Real Estate Portfolio**

- In early 2023, a \$50 million redemption was submitted in order to rebalance the portfolio with the proceeds scheduled to be paid out over several quarters. This will reduce the total commitment to \$100 million once all the proceeds are received.
- While declining 4.7% over the trailing one year, the FMIvT Core Real Estate portfolio significantly outperformed the benchmark (down 12.7%) with the large allocation to industrial properties providing the biggest boost. The office sector has continued to drag on performance with corporate work from home policies increasing vacancies.
- The portfolio has outperformed the NFI ODCE Net benchmark over the past 3 years and has achieved 330 basis points of excess return over the benchmark over the past 5 years.
