**Florida Municipal Pension Trust Fund – DB 70% Equity Allocation**  
**Executive Summary**  
*As of June 30, 2024*

**70% Equity Allocation**

- The US Fed continued to hold its benchmark rate steady with the forward guidance shifting and showing expectations for only one rate cut instead of 3 this year. Equity markets were mixed in the second quarter, with international and US large cap equities delivering strong returns while the US small caps declined. Credit spreads continued to trade in a relatively narrow range, but the economic backdrop remains supportive of credit and all-in yields are attractive relative to recent history. Real estate returns could continue to be challenged amid higher interest rates, tighter lending conditions, and reduced demand for office space. The 70% Equity Allocation was ahead of the Target Index in the second quarter, rising 0.9% versus up 0.8% for the index.
- This allocation has earned an 12.0% return over the past year, well ahead of the performance of the Target Index (up 11.2%).
- Over the past 10 years, this allocation is up 7.4% on average annually. While this performance is modestly behind the index, it ranks in the top 16<sup>th</sup> percentile of the peer group, with the risk controlled nature of many of the underlying strategies providing downside protection should the markets continue to moderate or decline.

**FMIvT Broad Market High Quality Bond Fund**

- The Broad Market High Quality Bond Fund continued to outperform the Bloomberg US Aggregate A+ Index in the second quarter (up 0.3% vs. up 0.1%). The Fund has continued to benefit from its exposure to the ABS sector and security selection within the MBS sector, with the slightly shorter duration also providing a boost. Over the past 5 years, the Fund has achieved nearly 50 basis points of excess return on average annually relative to the benchmark.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

**FMIvT Core Plus Fixed Income Fund**

- The Core Plus Fixed Income Fund outpaced the Bloomberg Multiverse index by nearly 190 basis points in the second quarter, rising 0.9% vs down 1.0% for the benchmark. The fund benefited from continuing to hold an overweight to credit, and the lower relative quality of its holdings. Strong security selection within the Industrials, Financials and agency MBS sectors helped to move the Fund forward. Over the last 3 years, the fund has outpaced the benchmark by nearly 430 basis points.
- In the 10 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 1.5% on average annually, ahead of the benchmark (down 0.3%).

**FMIvT Diversified Large Cap Equity Portfolio**

- The fund is allocated 60% to the SSgA S&P 500 Fund, and 20% each to the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund. This fund provides investors with exposure to core, value, and growth opportunities within the US large cap equity marketplace. The SSgA S&P 500 Fund replaced Intech in the fourth quarter 2023.
- U.S. equities continued to produce strong results in the second quarter with solid earning and momentum continuing to drive US large cap returns, but investors are increasingly wary of the elevated valuations for the large cap tech names that have propelled the rally. The underweight to the information technology and consumer discretionary sectors, and thus, being underweight to the Magnificent 7, continues to be biggest driver in the 2<sup>nd</sup> quarter underperformance for the Diversified Large Cap Equity Portfolio (up 2.0% vs. up 3.6%).
- Despite the near term difficulties, the Diversified Large Cap Equity portfolio has achieved a 13.4% on average annually over the past 5 years.

**Florida Municipal Pension Trust Fund – DB 70% Equity Allocation**  
**Executive Summary**  
*As of June 30, 2024*

**FMIvT Diversified Small to Mid Cap Equity Fund**

- Despite the second quarter headwinds facing SMID cap equities, this strategy outperformed the SMID benchmark by over 140 basis points. Strong stock selection and an overweight to industrials has continued to benefit the Fund over the past year. The Fund has outperformed the benchmark by nearly 720 basis points on average annually over the past 3 years.
- This strategy has generated very strong results over the past 10 years, rising 12.7% on average annually compared with 8.0% for the benchmark. Furthermore, the fund ranked in the top 4<sup>th</sup> percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

**FMIvT International Equity Portfolio**

- The FMIvT International Equity Portfolio continued to produce strong results in the second quarter, outpacing the MSCI ACWI ex US - Net benchmark by over 210 basis points and ranking in the top 9<sup>th</sup> percentile of its peer group of international equity managers. Strong stock selection in the healthcare and consumer staples sectors continued to provide the biggest boost to the portfolio in the second quarter.
- Despite some of the struggles over the past 3 years, the portfolio has outperformed the benchmark over the past 5 years (up 6.8% vs. up 5.6%).
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

**FMIvT Core Real Estate Portfolio**

- In early 2023, a \$50 million redemption was submitted in order to rebalance the portfolio with the proceeds scheduled to be paid out over several quarters. This will reduce the total commitment to \$100 million once all the proceeds are received.
- While declining 2.8% over the trailing one year, the FMIvT Core Real Estate portfolio significantly outperformed the benchmark (down 10.0%) with the large allocation to industrial and apartment properties providing the biggest boost. The office sector has continued to drag on performance with corporate work from home policies increasing vacancies.
- The portfolio has outperformed the NFI ODCE Net benchmark over the past 3 years and has achieved nearly 340 basis points of excess return over the benchmark over the past 5 years.
