
Florida Municipal Pension Trust Fund – DB 60% Equity Allocation
Executive Summary
As of December 31, 2021

60% Equity Allocation

- Risk assets finished the year on a positive note despite headwinds from the rapid spread of the Omicron variant and continued high inflation. At the December FOMC meeting, the Fed announced it would be accelerating its recently announced tapering plan and further tilted hawkish with updated rate projections now predicting three rate hikes in 2022. This is a notable change from September, when half the committee believed rate increases would wait until 2023. While the 60% Equity Allocation nearly matched the Target Index in the fourth quarter (up 4.3% vs. up 4.5%), this allocation modestly trailed the Target Index (up 12.4% vs. up 12.8%) over the past year.
- This allocation has managed to earn a 10.9% average annual return over the past 5 years, just slightly behind the performance of the Target Index (up 11.0%).
- Over the past 10 years, this allocation is up 9.4% on average annually. While this performance is slightly behind the target index (up 10.0%) the risk-controlled nature of many of the underlying strategies providing downside protection should the markets moderate.

FMLvT Broad Market High Quality Bond Fund

- The Broad Market High Quality Bond Fund slightly trailed the BloomBar US Aggregate A+ Index in the fourth quarter (down 0.1% vs. 0.0%). Despite the difficult results relative to the peer group of US Core Fixed Income managers over the past 5 years, this fund has been able to match the benchmark.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

FMLvT Core Plus Fixed Income Fund

- The Core Plus Fixed Income Fund provided strong downside protection relative to the BloomBar Multiverse Index in the fourth quarter, down 0.1% vs. down 0.7%. Over the past year, the fund achieved a 1.6% absolute return and outperformed the benchmark by over 600 basis points, ranking in the top 26th percentile of its peers of global unconstrained fixed income managers.
- In the 7 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 2.8% on average annually, slightly ahead of the benchmark (up 2.4%).
- The Core Plus Fixed Income Fund was added to the FMLvT lineup in April 2014 to provide broad global fixed income exposure. The Franklin Templeton Global Multi-Sector Plus Fund was removed from the Core Plus Fixed Income Fund in May 2021.

Florida Municipal Pension Trust Fund – DB 60% Equity Allocation
Executive Summary
As of December 31, 2021

FMLvT Diversified Large Cap Equity Portfolio

- The Diversified Large Cap Equity Portfolio was created in October 2017. The fund is allocated 60% to the Intech US Broad Equity Plus Fund, and 20% each to the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund. This fund provides investors with exposure to core, value, and growth opportunities within the US large cap equity marketplace.
- This strategy struggled to keep pace with the Russell 1000 benchmark in the fourth quarter (up 8.6% vs. up 9.8%). In spite of the fourth quarter difficulties, the strategy has continued to rebound from the first quarter 2020 challenges and outperformed the Russell 1000 (up 26.5% vs up 26.2%), while ranking in the top 31st percentile of its US large cap core equity peer group universe over the past 3 years.
- Despite the headwinds posed by the US large cap value stocks over more recent time periods, Hotchkis & Wiley has achieved an 32.7% return over the past year and is outperforming the Russell 1000 Value benchmark over all longer term time periods.

FMLvT Diversified Small to Mid Cap Equity Fund

- This strategy achieved strong results in the fourth quarter, outpacing the SMID Benchmark by over 550 basis points and ranking in the top 16th percentile of its peer group of US small-mid cap core equity managers.
- This strategy has generated very strong results over the past 10 years, rising 16.9% on average annually compared with 14.2% for the benchmark. Furthermore, the fund ranked in the top 15th percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

FMLvT International Equity Portfolio

- In October 2017, a ten percent allocation to emerging markets (Allspring Emerging Markets Fund) was added to this portfolio.
- This portfolio struggled relative to the MSCI ACWI ex US benchmark in the fourth quarter (up 1.1% vs. up 1.9%) as headwinds in China and Brazil weighed heavily on the emerging markets allocation of the strategy. Despite these difficulties, this fund has outpaced the benchmark by nearly 340 basis points and ranked in the top 43rd percentile of its peer group of international core managers over the past 3 years.
- Over the past 5 years, this strategy has been able to outpace the benchmark by over 180 basis points on average annually.
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

FMLvT Core Real Estate Portfolio

- This fund was added to the FMLvT lineup in March of 2018 with the objective to provide broad exposure to the core commercial real estate markets.
- In June 2018, the manager (Morgan Stanley Prime Property Fund) called down an additional commitment of \$75 million which increases the total commitment thus far to \$100 million.
- The FMLvT Core Real Estate Portfolio (up 9.8%) outperformed the NFI ODCE Net (up 7.7%) benchmark in the fourth quarter and has achieved over 220 basis points of excess return over the benchmark over the past 3 years.
