
Florida Municipal Pension Trust Fund – OPEB 50% Equity Allocation

Executive Summary

As of March 31, 2023

OPEB 50% Equity Allocation

- Market volatility surged after the sudden collapse of Silicon Valley Bank and Signature Bank, and fears around systemic risk to the banking sector weighed on market sentiment. Despite the volatility, central banks continued their hiking campaign, with the Fed implementing two 25 basis point hikes in the first quarter. Equity markets overcame the recent turbulence and were generally positive for the quarter. Bond market volatility soared, but strong fundamentals should help credit weather a slowing economy. The 50% Equity Allocation modestly trailed the Target Index in the first quarter (up 3.1% vs. up 4.1%).
- The lower allocation to equity has been favorable to the 50% Equity Allocation over the past year as the plan has achieved over 60 basis points of excess return over the Target Index and ranks in the top 30th percentile of the public fund peer group.
- Over the past 10 years, this allocation is up 5.8% on average annually. While this performance is modestly behind objectives, the risk controlled nature of many of the underlying strategies are designed to provide downside protection should the markets continue to moderate or decline.

FMLvT Broad Market High Quality Bond Fund

- The Broad Market High Quality Bond Fund slightly trailed the Bloomberg US Aggregate A+ Index in the first quarter (up 2.8% vs. up 2.9%). Despite these results, over the past year the portfolio has outpaced the benchmark by nearly 140 basis points and ranked in the top 12th percentile of the peer group of US Core Fixed Income managers. Despite the difficult results relative to the peer group over the past 5 years, this fund has been able to outpace the benchmark by over 40 basis points on average annually.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

FMLvT Core Plus Fixed Income Fund

- The Core Plus Fixed Income Fund rebounded from the fourth quarter difficulties, rising 3.2%, slightly ahead of the Bloomberg Multiverse (up 3.0%). Over the last year, the fund has outpaced the benchmark by nearly 300 basis points.
- In the 9 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 1.2% on average annually, ahead of the benchmark (up 0.0%).
- The Core Plus Fixed Income Fund was added to the FMLvT lineup in April 2014 to provide broad global fixed income exposure. The Franklin Templeton Global Multi-Sector Plus Fund was removed from the Core Plus Fixed Income Fund in May 2021.

Florida Municipal Pension Trust Fund – OPEB 50% Equity Allocation

Executive Summary

As of March 31, 2023

FMLvT Diversified Large Cap Equity Portfolio

- The Diversified Large Cap Equity Portfolio was created in October 2017. The fund is allocated 60% to the Intech US Broad Equity Plus Fund, and 20% each to the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund. This fund provides investors with exposure to core, value, and growth opportunities within the US large cap equity marketplace.
- This strategy achieved strong results in the first quarter, rising 5.8%. The portfolio has provided downside protection and has outperformed the benchmark by over 200 basis points over the past year (down 6.4% vs. down 8.4%).
- Over the past 3 years, the Diversified Large Cap Equity Portfolio has outperformed the Russell 1000 benchmark (up 20.1% vs. up 18.6%) and ranked in the top 18th percentile of its peer group of US large cap core equity managers.

FMLvT Diversified Small to Mid Cap Equity Fund

- This strategy achieved strong relative results over the past year, outpacing the SMID Benchmark by nearly 820 basis points and ranking in the top 22nd percentile of its peer group of US small-mid cap core equity managers.
- This strategy has generated very strong results over the past 10 years, rising 12.9% on average annually compared with 9.1% for the benchmark. Furthermore, the fund ranked in the top 5th percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

FMLvT International Equity Portfolio

- In October 2017, a ten percent allocation to emerging markets (Allspring Emerging Markets Fund) was added to this portfolio.
- This portfolio slightly trailed the MSCI ACWI ex US benchmark in the first quarter (up 6.7% vs. up 7.0%). Despite the difficulties the asset class has faced, this fund has modestly outpaced the benchmark over the past 3 years (up 13.7% vs. up 12.3%).
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

FMLvT Core Real Estate Portfolio

- This fund was added to the FMLvT lineup in March of 2018 with the objective to provide broad exposure to the core commercial real estate markets.
- In early 2023, a \$50 million redemption was submitted in order to rebalance the portfolio with the proceeds scheduled to be paid out over several quarters. This will reduce the total commitment to \$100 million once all the proceeds are received.
- The FMLvT Core Real Estate Portfolio (up 9.8%) outperformed the NFI ODCE Net (up 7.5%) benchmark over the past 3 years and has achieved nearly 230 basis points of excess return over the benchmark over the past 5 years.
