CITY OF MARATHON, FLORIDA

9805 Overseas Highway, Marathon, Florida 33050
Phone: (305) 743-0033 Fax: (305) 743-3667

March 31, 2021

To the Honorable Mayor,
Members of the Governing Council,
and Citizens of the City of Marathon:

It is our pleasure to submit to you the Comprehensive Annual Financial Report of the City of Marathon, Florida for the fiscal year ended September 30, 2020.

State law requires that all general-purpose local governments publish within nine months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with auditing standards generally accepted in the United States and Government Auditing Standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Marathon. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Marathon has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Marathon's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Marathon's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Marathon's financial statements have been audited by Keefe, McCullough & Co. LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Marathon for the fiscal year ended September 30, 2020, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Marathon's financial statements for the fiscal year ended September 30, 2020, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

In addition to meeting the requirements set forth above, the independent audit was also designed to meet the special needs of federal and state grantor agencies as provided for in the Federal Single Audit Act, Office of Management and Budget (OMB) Uniform Guidance and Florida Single Audit Act in accordance with Chapter 10.550, Rules of the Auditor General. These standards require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and state awards. These reports are presented in the compliance section of this report.

CITY OF MARATHON, FLORIDA

9805 Overseas Highway, Marathon, Florida 33050
Phone: (305) 743-0033 Fax: (305) 743-3667

In accordance with Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Marathon's MD&A can be found immediately following the independent auditor's report on the basic financial statements.

Profile of the Government

The City of Marathon, incorporated November 30, 1999, with a population of 9,097 residents, is located approximately one hour from Key West, Florida and Key Largo, Florida. Marathon is known as the "Heart of the Florida Keys." Its boundaries run from the east end of the Seven Mile Bridge, mile marker 47, to the west end of Tom's Harbor Bridge, approximately mile marker 60. The islands of Marathon include Boot Key, Knights Key, Hog Key, Vaca Key, Stirrup Key, Crawl and Little Crawl Key, East and West Sister's Island, Deer Key, Little Deer Key, Fat Deer Key, Long Point Key, and Grassy Key. The City of Marathon is empowered to levy a property tax on both real and personal properties located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which occurs when deemed appropriate by the City Council.

The City of Marathon operates under the council-manager form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and four other members. The City Council is responsible, among other things, for passing ordinances, resolutions, and regulations governing the city, adopting the budget, and appointing the city manager, city attorney, and members of various boards. The City Manager is responsible for carrying out the policies and ordinances adopted by the City Council, for overseeing the day-to-day operations of the City, appointing the heads of the various departments, and submission of the budget to City Council for approval. The mayor and four council members are elected at large every three years with a term limit of two consecutive terms.

The City of Marathon provides a wide variety of services, including police, fire protection, and emergency medical services; the construction and maintenance of highways, streets and other infrastructure; planning and zoning; building and code enforcement; and recreational activities and community events. The City also manages two enterprise funds; a City marina facility and a wastewater and stormwater utilities fund.

The financial reporting entity (the City of Marathon) includes all of the funds of the City. The City does not have any component units. A component unit is a legally separate entity for which the City is financially accountable or the nature and significance of the relationship between the City and the entity was such that exclusion would cause the City's financial statements to be misleading or incomplete.

CITY OF MARATHON, FLORIDA

9805 Overseas Highway, Marathon, Florida 33050
Phone: (305) 743-0033 Fax: (305) 743-3667

The annual budget serves as the foundation for the City of Marathon's financial planning and control. All departments of the City of Marathon are required to submit requests for appropriation to the City Manager. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents this proposed budget to City Council for review prior to September 1. The City Council is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30, the close of the City of Marathon's fiscal year. The appropriated budget is prepared by fund, function (e.g. public safety), and department (e.g. police). Department heads may make transfers within a department with the approval of the City Manager. Transfers of appropriations between departments, however, require the approval of the City Council. A budget-to-actual comparison for the general fund is included as Required Supplementary Information on page 59 following the notes to the basic financial statements. A budget-to-actual comparison for the street maintenance fund is also included as Required Supplementary Information following the notes to the basic financial statements on page 60. A budget-to-actual comparison for the capital infrastructure fund is included as other financial information on pages 73 and 74. For governmental funds, other than the general fund, street maintenance fund and capital infrastructure fund, this comparison is presented in the non-major governmental fund subsection of this report, on pages 75 and 76.

Factors Affecting Financial Condition

Local Economy

The Florida Keys are often referred to as the "American Caribbean" and Marathon is known as "The Heart of the Keys." Marathon's ideal location between Key Largo and Key West makes it a desirable place in which to live and work. Tourism is an important economic engine. The local environment offers excellent sport fishing and recreational diving opportunities. The tropical climate, in addition to the recreational water activities, makes the City a major tourist destination as well as a desirable retirement and second home location. The Florida Keys have continually ranked among the top tourist destinations in the Country. In addition to tourism, commercial seafood harvesting is a significant aspect of the local economy as the Florida Keys are one of the largest providers of seafood products in the country, serving both national and international markets.

During March of 2020 COVID-19 impacted the City due to the closure of the Florida Keys to all tourists until late June of 2020, however, the City of Marathon's economic outlook is strong. The tourism industry in the Florida Keys is vibrant and has proven to be extremely resilient. The City experienced decreased sales tax revenues due to the impacts of COVID-19. The City is experiencing growth in the commercial and residential sector with new; resorts, restaurants, businesses and residences coming online. In December 2020, the area's unemployment rate was 3.8%, compared with the statewide rate of 6.1%.

Long-term Financial Planning and Relevant Financial Policies

The City has a 5-Year Capital Plan and prioritizes needs based on its expected available resources. This effort identifies capital purchases that will be needed to continue its critical core public safety services, as well as other departmental needs.

CITY OF MARATHON, FLORIDA

9805 Overseas Highway, Marathon, Florida 33050
Phone: (305) 743-0033 Fax: (305) 743-3667

The City has limited its borrowing to prudent levels that are able to be satisfied with existing revenue and cash flow projections. In order to minimize our debt issuance (and related costs) to when it is absolutely necessary, the City has a pay-as-you-go financing policy for CIP projects which includes:

- Projects having a small dollar value
- Projects which can be broken into phases with a portion completed each year without impairing the overall effectiveness of the project
- Projects which are of a recurring nature
- Projects where the assets acquired will have relatively short useful lives.

The City has adopted a cash management policy that is designed to maintain earnings free from risk, maintain adequate liquidity to meet the City's obligations, and maximize investment return. To ensure the safety of the City's funds, all investments are with depositories that are qualified under Florida law and thus are fully collateralized in accordance with Chapter 280 of the State statutes.

Major Initiatives

On September 10, 2017 The City of Marathon was hit with a Category 4 hurricane. Hurricane Irma caused severe damage to City infrastructure, commercial and residential properties. Over 400 homes were destroyed, placing a greater strain on affordable housing. The City is still in the process of recovery and is using this time to focus on the redevelopment and mitigation of older amenities.

The City will continue to pursue its long-term goals as outlined in the Five-Year Capital Improvement Plan. The City continues to devote resources to affordable housing, transportation and traffic concerns. The City also has various bridge repair, culvert and canal restoration efforts underway. Other major projects currently included in the Five-Year Capital Improvement Plan are:

- Seawall and amenities at the Quay property
- Improvements at City parks and beaches
- The continued implementation of the Fire Safety Program

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Marathon for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2019. This was the seventeenth consecutive year that the City of Marathon achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

CITY OF MARATHON, FLORIDA

9805 Overseas Highway, Marathon, Florida 33050
Phone: (305) 743-0033 Fax: (305) 743-3667

A Certificate of Achievement is valid for a period of one year only. We believe that the September 30, 2020 Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been accomplished without the dedicated and efficient service of the entire staff of the finance department. We would like to express our appreciation to all members of other City departments who assisted and contributed to the preparation of this report. We would also like to express a special note of thanks to our independent certified public accountants, Keefe, McCullough & Co., LLP, for their cooperation and assistance. Their professional approach and high standards in the conduct of their independent audit of the City's financial records and transactions is greatly appreciated.

Respectfully submitted,

George Garrett

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council
City of Marathon, Florida
Marathon, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Marathon, Florida (the "City") as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2020 and the respective changes in financial position, and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules related to pensions and other post-employment benefits on pages 4 through 15 and pages 62 through 70, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, budgetary comparison information, other financial information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is also not a required part of the basic financial statements.

The budgetary comparison information, other financial information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information, other financial information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2021, on our consideration of the City's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

KEEFE MCCULLOUGH

Fort Lauderdale, Florida

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

This Page Intentionally Left Blank

As management of the City of Marathon, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2020. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages i through v of this report.

Fund-based financial reporting and government-wide reporting are not viewed as being in conflict; however, they are not comparable. A significant portion of this analysis focuses on the changes in the government-wide statements, while still providing information on the City's fund-based comparative changes.

Financial Highlights

- The assets and deferred outflows of resources of the City of Marathon exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$ 149,750,092 (net position), as compared with \$ 131,216,726 for the previous year. Of this amount, \$ 41,251,408 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors as compared with \$ 28,010,159 for the previous year. This increased from the prior year due to an increase in intergovernmental revenues for Hurricane Irma reimbursements received from the Federal Emergency Management Agency (FEMA) and the State of Florida.
- The City's total net position increased by \$ 18,533,366 or 12.38% during the current fiscal year. Included in the total net position is governmental net position that increased by \$ 15,268,681 and business-type activities net position that increased by \$ 3,264,685.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$ 20,766,653, an increase of \$ 13,083,935 in comparison with the prior year. \$ 12,291,091 (59.19%) of this total amount is available for spending at the City's discretion (unassigned fund balance in the General Fund).
- The City's total debt decreased by \$ 5,259,282 (9.01%) during the current fiscal year due to annual payments.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Marathon's basic financial statements. The City's basic financial statements contain three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Marathon that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, community services (public works, street and bridge maintenance, parks and recreation, nearshore waters), public safety (fire, EMS, police), and community development (planning, building, code). The business-type activities of the City include a full-service marina and a wastewater and stormwater utility.

The government-wide financial statements can be found on pages 16 and 17 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Marathon, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Marathon can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The City of Marathon previously implemented Governmental Accounting and Financial Standards Board (GASB) Statement No. 54 *Fund Balance Reporting and Governmental Fund Type Definitions*. The objective of Statement No. 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. Fund balances are now presented in the following classifications:

Non-Spendable Fund Balance - Amounts that are not in a spendable form (for example, inventory, long-term portion of loans, prepaid expenses, and notes receivable), or are required to be maintained intact (for example, the principal of an endowment fund).

Restricted Fund Balance - Amounts that can be spent only for the specific purposes stipulated by external resource providers (i.e. grant providers), constitutionally, or through enabling legislation (legislation that creates a new revenue source and restricts its use). Effectively, a restriction may be changed or lifted only with the consent of resource providers.

Committed Fund Balance - Amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority (i.e. City Council). Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.

Assigned Fund Balance - Amounts intended to be used by the government for a specific purpose. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority (the authority for making an assignment is not required to be the government's highest level of decision making authority).

Unassigned Fund Balance - the residual classification for the General Fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The City of Marathon maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Street Maintenance Fund, and Capital Infrastructure Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* on pages 71 and 72 of this report.

The City of Marathon adopted an annual appropriated budget for its General Fund, four of its special revenue funds, the Capital Project Fund and the Debt Service Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget (page 59). A budgetary comparison schedule has also been provided for the major special revenue fund, which is the Street Maintenance Fund (page 60) and the Capital Infrastructure Fund, which is a capital project fund (pages 73 and 74).

The governmental fund financial statements can be found on pages 18 through 21 of this report.

Proprietary funds. The City of Marathon maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its wastewater and stormwater utility and its marina.

Proprietary funds provide the same type of information as the government-wide statements, only in more detail. The proprietary fund financial statements provide information for the wastewater and stormwater utilities and the marina (nonmajor).

The proprietary fund financial statements can be found on pages 22 through 25 of this report. Data from the only nonmajor proprietary fund, the Marina Enterprise Fund, is also included in this presentation.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Firefighters' Pension Trust Fund is the only fiduciary fund for the City.

The basic fiduciary fund financial statements can be found on pages 26 and 27 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28 through 58 of this report.

Other Information

In addition to the basic financial statements and the accompanying notes, this report also presents certain *required supplementary information*, concerning the City of Marathon's budgetary comparison schedules for the General Fund and major special revenue fund and the progress in funding its obligation to provide pension benefits to certain employees and council members, as well as other post-employment benefits.

Required supplementary information can be found on pages 59 through 70 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 71 through 76 of this report.

Government-wide Financial Analysis

Net Position: As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Marathon, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$ 149,750,092 at the close of the most recent fiscal year, compared to net position of \$ 131,216,726 the prior year.

City of Marathon's Net Position

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 26,217,130	\$ 14,739,059	\$ 21,166,287	\$ 22,277,099	\$ 47,383,417	\$ 37,016,158

Deferred inflows of resources	813,131	1,020,705	27,299	21,744	840,430	1,042,449
Net position:						
Net investment in capital assets	35,592,849	32,346,880	69,923,370	67,362,414	105,516,219	99,709,294
Restricted	2,982,465	3,497,273	-	-	2,982,465	3,497,273
Unrestricted	21,388,072	8,850,552	19,863,336	19,159,607	41,251,408	28,010,159
Total net position	\$ 59,963,386	\$ 44,694,705	\$ 89,786,706	\$ 86,522,021	\$ 149,750,092	\$ 131,216,726

The largest portion of the City's net position (70.46%) reflects its investment in capital assets (e.g. land, building, and equipment), less any related debt used to acquire those assets that are still outstanding. This investment in capital assets reflects a 5.83% increase from the prior year. The City uses its capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Marathon
Management's Discussion and Analysis
September 30, 2020

An additional portion of the City's net position, \$ 2,982,465 (2.00%), represents resources that are subject to external restrictions on how they may be used. This represents a decrease of 14.72% from the previous year's balance of \$ 3,497,273. The remaining balance of unrestricted net position \$ 41,251,408 (27.54%) may be used to meet the City's ongoing obligations to citizens and creditors.

Changes in Net Position

Governmental activities and business-type activities increased the City's net position by \$ 18,533,366 from the previous fiscal year. The relevant revenue and expense categories and their effect on net position are summarized in the table below. The information presented in this table will be used in the subsequent discussion of governmental and business-type activities:

Governmental activities increased the City of Marathon's net position by \$ 15,268,681 as compared to an increase in net position of \$ 9,595,008 in the prior fiscal year. This increase is due to increased intergovernmental revenues for Hurricane Irma reimbursements received from FEMA and the State of Florida.

Program revenues, comprised of charges for services as well as operating and capital grants, and contributions represent 70.4% of the governmental activities total revenues. Property taxes, which represent 22.1% of total revenues for governmental activities, are non-program specific and are used to fund all activities not covered by program revenues.

Revenue Sources - Governmental Activities

Business-Type Activities

Business-type activities increased the City of Marathon's net position by \$ 3,264,685.

This is the seventeenth year of operation for the Marina Enterprise Fund, and the fifteenth year of operation for the Wastewater and Stormwater Utility Enterprise Fund.

- In total, the City's business-type activities reflected an operating loss of \$ 4,349,559. This is primarily due to the Wastewater and Stormwater's operating loss of \$ 4,330,309. The operating loss is primarily due to the provision for depreciation of \$ 5,079,685.
- The Marina Fund's operating loss of \$ 19,250 is down \$ 96,822 from its operating income from the previous year of \$ 77,572. The operating loss is primarily due to the provision for depreciation of \$ 158,880.

Charges for services represent 47.2% of the total business-type revenues.

Financial Analysis of the Government's Funds

As noted earlier, the City of Marathon uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Marathon's governmental funds reported combined ending fund balances of \$ 20,766,653 an increase of \$ 13,083,935 in comparison with the prior year. Of this total amount, \$ 12,291,091 is available for spending at the City's discretion. The remainder of fund balance: \$ 83,156 is restricted for police education, \$ 252,479 is restricted for firefighter pension, \$ 297,050 is restricted for street maintenance projects, \$ 2,349,780 is restricted for capital projects, \$ 29,667 is *nonspendable fund balance* for prepaid items, \$ 5,463,430 is *committed fund balance* to indicate that it is not available for new spending because it is already committed for a variety of restricted purposes.

General Fund: The General Fund is the main operating fund of the City of Marathon. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$ 12,291,091 while total fund balance was \$ 12,656,393.

The fund balance of the City of Marathon's General Fund increased by \$ 12,944,234 during the current fiscal year. Total General Fund revenues increased 53% while expenditures increased 4%, due to increased reimbursements received from FEMA and the State of Florida for Hurricane Irma.

City of Marathon
Management's Discussion and Analysis
September 30, 2020

The amount of General Fund revenue by type, the percent of the total and the amount of change compared to last fiscal year are shown in the following schedule:

	2020 Amount	Percentage of Total	2019 Amount	Percentage of Total	Increase (Decrease) From 2019	Percentage of Increase (Decrease)
Revenues:						
Property taxes	\$ 6,847,271	28%	\$ 6,351,257	39%	\$ 496,014	8%
Intergovernmental	13,147,314	53%	3,979,592	25%	9,167,722	230%
Licenses and permits	2,721,267	11%	3,756,614	23%	(1,035,347)	-28%
Charges for services	1,257,636	5%	1,388,284	9%	(130,648)	-9%
Fines and forfeitures	126,148	1%	141,389	1%	(15,241)	-11%
Communication services						
taxes	496,713	2%	472,628	3%	24,085	5%
Interest	39,342	0%	-	0%	39,342	8%
Miscellaneous	45,384	0%	45,360	0%	24	0%
Total revenues	\$ 24,681,075	100%	\$ 16,135,124	100%	\$ 8,545,951	53%

- Intergovernmental revenue increased \$ 9,167,722 (230%) primarily due to grant revenue reimbursements related to Hurricane Irma recovery efforts that were received from the FEMA and the State of Florida
- Licenses and permits revenue decreased \$ 1,035,347 (-28%) due to a decrease in building permit fee activity related to Hurricane Irma recovery efforts.

Expenditures in the General Fund are shown in the following schedule:

	2020 Amount	Percentage of Total	2019 Amount	Percentage of Total	Increase (Decrease) From 2019	Percentage of Increase (Decrease)
Expenditures:						
City Council	\$ 481,005	4%	\$ 563,359	5%	\$ (82,354)	-15%
Administration	2,063,275	17%	1,815,150	15%	248,125	14%
Legal	594,375	5%	493,473	4%	100,902	20%

Parks and recreation	1,475,616	12%	1,306,606	11%	169,010	13%
Bridge and near shore						
waters	26,017	0%	33,273	0%	(7,256)	-22%
Non departmental	49,492	0%	138,728	1%	(89,236)	-64%
Community development	1,623,247	13%	1,434,355	12%	188,892	13%
Interest	-	0%	29,101	0%	(29,101)	-100%
Total expenditures	\$ 12,456,427	100%	\$ 12,011,981	100%	\$ 444,446	4%

- Administration expenditures increased \$ 248,125 (14%) due to increased information technology expenditures for cyber security and upgraded computer equipment.
- Community development expenditures increased \$ 188,892 (13%) due to increased building department expenditures for contracted professional services.

Other governmental funds: Significant items pertaining to other governmental funds are as follows:

- The Street Maintenance Fund decreased its fund balance by \$ 1,049,860 due to the ongoing Aviation Trail project, which will partially be reimbursed by the Florida Department of Transportation (FDOT).
- The Capital Infrastructure Fund increased its fund balance by \$ 1,208,825 due to reimbursements received from FEMA and the State of Florida for Hurricane Irma repairs at Sombrero Beach.

Proprietary Funds: In addition to the items already addressed in the discussion of the City's business-type activities, other significant items pertaining to the City's business-type activities are as follows:

Wastewater and Stormwater Utility Fund

- The City-wide stormwater collection and wastewater collection and treatment systems have been online and operating since the end of fiscal year 2013. This activity resulted in an increase in the Wastewater and Stormwater Utility Fund net position of \$ 2,374,333 which is mainly attributed to grant revenue reimbursements from the Army Corp of Engineers, FEMA and the Florida Department of Environmental Protection.

Marina Fund

- The activities at the City's marina resulted in an increase of net position of \$ 890,352 due to reimbursements received from FEMA and the State of Florida for Hurricane Irma repairs to the Marina.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget resulted in an increase of \$ 3,148,531 in total budgeted revenues. The significant changes to the individual departments (budgetary level of control for the General Fund) from the original to the final amended budget can be briefly summarized as follows:

- The Planning Department budget was decreased by \$ 519,031 due to personnel and professional services being less than originally anticipated.
- The Legal Department budget was increased by \$ 220,000 due to outsourced services for litigation matters.

Actual expenditures were \$ 1,699,105 below the final budgeted amounts. The significant variances can be summarized as follows:

- Public Safety (\$ 820,599), and Community Services (\$ 219,275) were under budget due to operating costs being less than projected.

Resources available for appropriations were \$ 1,055,913 over the budgeted amount. The significant variance can be summarized as follows:

- Intergovernmental revenues were \$ 945,432 over budget due to local grant revenues from the Monroe County Land Authority (\$ 800,000) being more than anticipated.

Capital Assets and Debt Administration

Capital assets: The City of Marathon's investment in capital assets for its governmental and business-type activities as of September 30, 2020, amounts to \$ 158,685,403 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment, and park facilities. The investment does not include governmental infrastructure assets acquired prior to 2004, as GASB 34 does not require Phase III governments to report infrastructure retroactively. The total net increase in the City's investment in capital assets for the current fiscal year was \$ 547,643 as compared to the \$ 1,520,848 net increase in the prior year.

Major capital asset events during the current fiscal year included the following:

Governmental Activities:

- Construction in progress had a net increase of \$ 673,627. Notable items include a \$ 1,705,832 increase for work completed on the Aviation Pedestrian Trail project. Also, a decrease of \$ 1,018,755 for the Sombrero Beach Hurricane Irma Reconstruction Project that was placed into service during the year.
- \$ 950,713 increase in land for the purchase of land for a future affordable housing project with Habitat of Humanity of the Middle Keys.

Business Activities:

- Construction in progress had a net decrease of \$ 3,563,476. A significant change was the decrease of \$ 4,037,278 for the Service Area 5 Wastewater Project being placed into service during the year as an increase to improvements other than buildings.
- Improvements other than buildings increased by \$ 434,961 and construction in progress decreased by the same amount for the Marina Hurricane Irma Dingy Dock project that was placed into service during the year.

Additional information on the City's capital assets can be found in Note 6 on pages 38 through 40 of this report.

Long-term liabilities: At the end of the current fiscal year, the City of Marathon had governmental activities improvement revenue bond debt outstanding of \$ 5,255,000. This debt is secured by the City's local discretionary sales surtax revenues. The City's Wastewater and Stormwater Enterprise Fund also had State Revolving Fund debt outstanding of \$ 46,864,184. The State Revolving Fund debt is secured by the pledge of future non-ad valorem assessments for utility construction, the capital infrastructure funds, and the gross revenues derived yearly from the operation of the sewer and stormwater systems after payment of operating and maintenance expenses and the satisfaction of all yearly payment senior obligations.

The City of Marathon's total long-term liabilities decreased by \$ 4,861,085 (8.21%) during the current fiscal year.

Additional information on the City of Marathon's long-term debt can be found in Note 7 on pages 40 through 43 of this report.

Economic Factors and Next Year's Budgets and Rates

The unemployment rate for Monroe County was 3.8% in December of 2020, which is an increase from a rate of 1.8% a year ago. The rate compares favorably to the state's average unemployment rate of 6.1%

During March of 2020 COVID-19 impacted the City of Marathon due to the closure of the Florida Keys to all tourists until late June of 2020. The City experienced decreased sales tax revenues due to the impacts of COVID-19. Yet, the City of Marathon's economic outlook is strong. The tourism industry in the Florida Keys is vibrant and has proven to be extremely resilient.

An increase in property values resulted in a roll-back rate, which is the tax rate that would bring in the same amount of money from the previous year of 2.4631. For fiscal year 2021, the City adopted a final millage rate of 2.5900 mills which is 5.15% above the roll-back rate, as compared to 2.5900 mills in fiscal year 2020.

During fiscal year 2021, the City will be working on the following programs/projects:

- Hurricane Irma Recovery Projects
- City parks & beaches
- City Marina and Parks & Recreation buildings
- Street repairs, street signs and stormwater culvert cleanouts
- Canal restoration and stormwater projects

Requests for Information

This financial report is designed to provide a general overview of the City of Marathon's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Finance Director, City of Marathon, 9805 Overseas Highway, Marathon, Florida 33050.

City of Marathon, Florida
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
September 30, 2020

Fund Balances - Total Governmental Funds	\$ 20,766,653
---	----------------------

Amounts Reported for Governmental Activities in the Statement of Net Position are Different Because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds:

Governmental capital assets	62,615,289
Less accumulated depreciation	(20,717,440)

Accrued interest payable not reported in the governmental funds	(77,437)
---	----------

Unavailable revenue in governmental funds is susceptible to full accrual on the government-wide statements.	2,407,666
---	-----------

Certain assets are not an available resource and certain liabilities are not due and payable in the current period and, therefore, are not reported in the funds. These assets and liabilities are comprised of the following:

Net pension asset	1,920,904
Net pension liability	(97,355)
Deferred outflows related to pensions	896,359
Deferred inflows related to pensions	(723,438)
Net OPEB obligation	(652,398)
Deferred outflows related to OPEB	223,281
Deferred inflows related to OPEB	(89,693)
Compensated absences payable	(204,005)
Note payable	(1,050,000)
Governmental revenue bonds payable	(5,255,000)

Net Position of Governmental Activities	\$ <u>59,963,386</u>

The accompanying notes to the financial statements are an integral part of these statements.

City of Marathon, Florida
Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended September 30, 2020

Net Change in Fund Balances - Total Governmental Funds	\$ 13,083,935
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives:	
Expenditures for capital assets	4,291,162
Less current year provision for depreciation	(2,157,882)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to decrease net assets	(17,311)
Revenues that are earned but not received within the availability period are recognized in the statement of activities when earned and subsequently in the governmental fund financial statements when they become available. The net difference is recorded as a reconciling item.	(955,717)
The issuance of long-term debt (e.g. bonds and notes payable) provide current financial resources to governmental funds, while repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position	
Principal payments	1,130,000
Certain items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds:	
Change in accrued interest payable	(30,975)
Change in net pension asset	(602,009)
Change in net pension liability	(14,073)
Change in deferred outflows related to pension	388,003
Change in deferred inflows related to pension	224,471
Change in net OPEB obligation	(274,882)
Change in deferred outflows related to OPEB	213,601
Change in deferred inflows related to OPEB	(16,897)
Change in compensated absences payable	7,255
Change in Net Position of Governmental Activities	\$ 15,268,681

The accompanying notes to the financial statements are an integral part of these statements.

NOTES TO BASIC FINANCIAL STATEMENTS

This Page Intentionally Left Blank

Note 1 - Summary of Significant Accounting Policies

The City of Marathon (the "City") is a municipal corporation organized pursuant to Chapter 99-427, Laws of Florida and is located in Monroe County (the "County"). The City was incorporated on November 30, 1999. The City operates under the Council-Manager form of government and provides the following services: general government, public safety, community services and community development. The City also operates two enterprise funds which provide wastewater, stormwater and marina services.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below:

Financial reporting entity: The financial statements were prepared in accordance with GASB pronouncements for *The Financial Reporting Entity*, which establishes standards for defining and reporting on the financial reporting entity. The definition of the financial reporting entity is based upon the concept that elected officials are accountable to their constituents for their actions. One of the objectives of financial reporting is to provide users of financial statements with a basis for assessing the accountability of the elected officials. The financial reporting entity consists of the City, organizations for which the City is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The City is financially accountable for a component unit if it appoints a voting majority of the organization's governing board and it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City. Based upon the application of these criteria, there were no organizations that met the criteria for component units described above.

Government-wide and fund financial statements: The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, the proprietary funds, and the fiduciary fund, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement focus, basis of accounting and financial statement presentation: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences are recorded only when payment is due.

Property taxes, franchise fees and other taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Revenues for expenditure driven grants are recognized when the qualifying expenditures are incurred. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Street Maintenance Fund, a special revenue fund, is used to account for revenues derived from a portion of state shared revenues, and the local option gas tax. Funds can only be used for road construction and maintenance.

The Capital Infrastructure Fund, a capital projects fund, accounts for revenues derived from local government infrastructure surtax levied in the County, as well as other income sources, including grant revenues. Funds can only be expended to finance, plan and construct infrastructure and to acquire land for public recreation, conservation or protection of natural resources.

The City reports the following major proprietary fund:

The Wastewater and Stormwater Fund accounts for the provision of wastewater services and stormwater control services to City residents, businesses and government agencies.

Additionally, the City reports the following fiduciary fund type:

The Firefighters' Pension Fund is used to account for the City's single-employer defined benefit pension plan covering its firefighters.

Note 1 - Summary of Significant Accounting Policies (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's Proprietary Funds and the General Fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the costs of services, personnel costs, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Deposits and investments: The City's cash and cash equivalents are considered to be cash on hand and short-term investments. Deposits include cash on hand and interest bearing checking accounts.

City administration is authorized to invest in those instruments authorized by the Florida Statutes. Investments include the Local Government Surplus Funds Trust Fund. Investment in the Local Government Surplus Funds Trust Fund administered by the State Board of Administration is reported at the fair value of its position in the pool, which is the same as the value of the pool shares.

Receivables and payables: Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Capital assets: Capital assets, which include property, plant and equipment, and certain infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$ 1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed.

Capital assets of the City are depreciated using the straight line method over the following estimated useful lives:

Buildings and structures	10-50 years
Leasehold improvements	5-20 years
Improvements other than buildings	10-50 years
Fire equipment and vehicles	5-12 years
Furniture and equipment	3-20 years

Note 1 - Summary of Significant Accounting Policies (continued)

Prepaid items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than purchased.

Deferred outflows/inflows of resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. The first item is the deferred outflows related to the pension liability (asset) and is discussed further in Note 10. The second item is the deferred outflows related to OPEB and is discussed further in Note 11.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has three items that qualify for reporting in this category. The first item is the deferred inflows related to the net pension liability (asset) and is discussed further in Note 10. The second item is the deferred inflows related to OPEB and is discussed further in Note 11. The third item appears in the governmental funds as unavailable revenues that are deferred and recognized as an inflow of resources in the period that the amounts become available.

Compensated absences: It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements. The General Fund has typically been used to liquidate such amounts.

Unearned/unavailable revenue: Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. Unearned revenues at the government-wide level arise only when the City receives resources before it has a legal claim to them.

Long-term obligations: In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the debt. In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

Fund balance: The City presents fund balance in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement requires that governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent.

Note 1 - Summary of Significant Accounting Policies (continued)

The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. "Not in spendable form" includes items that are not expected to be converted to cash (such as inventories and prepaid amounts) and items such as long-term amount of loans and notes receivable, as well as property acquired for resale. The corpus (or principal) of a permanent fund is an example of an amount that is legally or contractually required to be maintained intact.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by resolution of the City Council. These amounts cannot be used for any other purpose unless the Council removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

Assigned: This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. The Council has by resolution authorized the City Manager to assign fund balance. The Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenues and appropriations in the subsequent year's appropriated budget. Unlike commitments; assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment.

Unassigned: This classification includes the residual fund balance for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Note 1 - Summary of Significant Accounting Policies (continued)

Net position: Net position of the government-wide and proprietary funds are categorized as net investment in capital assets; restricted or unrestricted. Net investment in capital assets is that portion of net position that relates to the City's capital assets reduced by accumulated depreciation and by any outstanding debt incurred to acquire, construct or improve those assets, excluding unexpended proceeds. Restricted net position is that portion of net position that has been restricted for general use by external parties (creditors, grantors, contributors, or laws or regulations of other governments) or imposed by law through constitutional provisions or enabling legislation. Unrestricted net position consists of all net position that does not meet the definition of either of the other two components.

When an expenditure is incurred for purposes for which both restricted and unrestricted net position are available, the City considers restricted funds to have been spent first.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Allowance for doubtful accounts: The City's contracted service provider processes receivables associated with emergency medical services (EMS). An allowance account of \$ 2,561,001 is established for EMS receivables based on historical collection rates.

Date of management review: Subsequent events were evaluated through March 31, 2021, which is the date the financial statements were available to be issued.

Note 2 - Deposits and Investments

Deposits: In addition to insurance provided by the Federal Depository Insurance Corporation, deposits which consist of cash on hand and interest bearing checking accounts are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, Florida Security for Public Deposits Act, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or another banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Therefore, all amounts presented as deposits are insured or collateralized.

Investments - City: The City is authorized to invest in obligations of the United States Treasury, its agencies, instrumentalities and the Local Government Surplus Funds Trust Fund administered by the State Board of Administration. The investments follow the investment rules defined in Florida Statutes Chapter 215. The investment policy defined in the statutes attempts to promote, through state assistance, the maximization of net investment earnings on invested surplus funds of local units of governments while limiting the risk to which the funds are exposed.

The City has funds invested in the Local Government Surplus Funds Trust Fund (the "Florida PRIME"). Florida PRIME is administered by the Florida State Board of Administration ("SBA"), who provides regulatory oversight. Florida PRIME has adopted operating procedures consistent with the requirement for a 2a7-like fund. The City's investment in the Florida PRIME is reported at amortized cost. The fair value of the position in the pool is equal to the value of the pool shares.

Note 2 - Deposits and Investments (continued)

As of September 30, 2020, the City had the following investments:

	Fair Value	Investment Maturities (In Years)
Florida PRIME	\$ 45,996	Less than 1

Interest rate risk: The City has an investment policy of structuring the investment portfolio so that the securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and investing operating funds primarily in short-term securities, money market mutual funds, or similar investment pools. The weighted average maturity of the securities held in Florida PRIME is 48 days.

Credit risk: The City's investment policy limits investments to the highest ratings issued by a nationally recognized statistical rating organization (NRSRO). Florida PRIME is rated AAAM by Standard and Poor's.

Investments - Firefighters' Pension Plan: The Firefighters' Pension Plan is part of the Florida Municipal Pension Trust Fund ("FMPTF") which is an external investment pool (the "Pool") established for the purpose of funding the individually designed employee pension plans of the participating Florida municipalities. The assets of defined benefit plans are invested through the Florida Municipal Investment Trust (FMIvT), an external investment pool open to eligible units of local governments to invest in one or more investment portfolios under the direct and daily supervision of an investment advisor. FMIvT is not subject to SEC or other regulatory oversight. The FMIvT Board of Trustees provides oversight. The fair value of the positions in the FMIvT portfolios is the same as the value of the portfolio shares. The Florida League of Cities, Inc. serves as Administrator for both the Fund and FMIvT.

As of September 30, 2020, the City's Firefighters' Pension Plan has the following required disclosures:

Credit Risk:	Fitch Rating	Amount
Fixed Income Funds:		
FMIvT Broad Market High Quality Bond Fund	AAf/S4	\$ 1,516,509
FMIvT Core Plus Fixed Income Fund	Not rated	1,527,420
Equity Portfolios:		
FMIvT Diversified Large Cap Equity Portfolio	Not rated	3,938,560
FMIvT Diversified Small to Mid Cap Equity Portfolio	Not rated	1,112,834
FMIvT International Equity Portfolio	Not rated	1,734,712
FMIvT Core Real Estate Fund	Not rated	992,823
		\$ 10,822,858
Interest Rate Risk (In Years):		
Fixed Income Funds:	Duration	WAM
FMIvT Broad Market High Quality Bond Fund	5.52	6.60
FMIvT Core Plus Fixed Income Fund	3.35	5.82

Note 2 - Deposits and Investments (continued)

Fair Value Hierarchy: GASB Statement No. 72, *Fair Value Measurement and Application*, establishes a hierarchy disclosure framework which prioritizes and ranks the level of market price observability used in measuring investment at fair value. Various inputs are used in determining the fair value of investments. These inputs are categorized into a fair value hierarchy consisting of three broad levels for financial statement purposes as follows:

- Level 1 - investments reflect unadjusted quoted prices in active markets for identical assets.
- Level 2 - investments reflect prices that are based on a similar observable asset, either directly or indirectly, which may include inputs in markets that are not considered to be active.
- Level 3 - investments reflect prices based upon unobservable sources.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

The following is a general description of the valuation methodologies used for assets measured at fair value.

Investments classified as Level 2 for the FMIvT, in the table below, are valued based on significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, cash flows, maturity, and credit ratings), or other market corroborated inputs specific to the investment type.

Investments classified as Level 3 for the FMIvT, in the table below, are valued based on significant unobservable inputs based on all information available in the circumstances to the extent observable inputs are not available. Shares of the underlying funds of the FMIvT Core Plus Fixed Income Fund are not publicly quoted. These underlying funds invest in a variety of financial instruments, including equity investments, asset-backed securities, swaps, forward exchange contracts, credit-linked notes, escrow accounts and litigation trusts for both U.S. and foreign companies and governments. Shares of the underlying fund of the FMIvT Core Real Estate Fund are also not publicly quoted. The underlying fund invests in core real estate in the U.S. The value of the investments was determined based on quarterly real estate appraisals which were calculated in accordance with generally accepted accounting principles.

Fair values of investments held by the City's Firefighters' Pension Plan are classified at September 30, 2020 as follows:

Investments	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Investments Valued at NAV
Florida Municipal Investment Trust Funds	\$ 10,822,858	\$ -	\$ 8,302,615	\$ 2,520,243	\$ -

Note 2 - Deposits and Investments (continued)

Additional information for investments measured at Level 3 is presented in the table below as of September 30, 2020.

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
FMLvT Core Plus Fixed Income Fund	\$ 1,527,420	\$ -	Monthly	1 business day
FMLvT Core Real Estate Portfolio	992,823	-	Quarterly	5 business days
	<u>\$ 2,520,243</u>	<u>\$ -</u>		

Given the inherent nature of investments, it is reasonably possible that changes in the value of those investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Note 3 - Property Taxes

Property values are assessed on a county-wide basis by the Monroe County Property Appraiser as of January 1, the lien date, of each year and are due the following November 1st (levy date). Taxable value of property within the City is certified by the Property Appraiser and the City levies a tax millage rate upon the taxable value, which will provide revenue required for the fiscal year beginning October 1.

Property taxes levied each November 1 by the City and all other taxing authorities within the County, are centrally billed and collected by Monroe County, with remittances to the City of their proportionate share of collected taxes. Taxes for the fiscal year beginning October 1 are billed in the month of November, subject to a 1% per month discount for the periods November through February, and are due no later than March 31. On April 1, unpaid amounts become delinquent with interest and penalties added thereafter. Beginning June 1, tax certificates representing delinquent taxes with interest and penalties are sold by the County, with remittance to the City for its share of those receipts. At September 30, 2020, there were no significant delinquent taxes.

Note 4 - Receivables and Payables

Receivables for the City's individual major funds, nonmajor funds and fiduciary fund in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Street Maintenance	Capital Infrastructure	Affordable Housing
Customers billed	\$ 2,821,101	\$ -	\$ -	\$ -
Intergovernmental	2,745,756	604,191	542,232	-
Loans	-	-	-	720,000
Miscellaneous	16,457	-	-	-
Gross receivables	5,583,314	604,191	542,232	720,000
Less allowance for uncollectibles	(2,567,249)	-	-	-
Net receivables	<u>\$ 3,016,065</u>	<u>\$ 604,191</u>	<u>\$ 542,232</u>	<u>\$ 720,000</u>

City of Marathon, Florida
Notes to Basic Financial Statements
September 30, 2020

Note 4 - Receivables and Payables (continued)

	Wastewater/ Stormwater	Marina	Pension Trust Fund	Total
Customers billed	\$ 379,458	\$ -	\$ -	\$ 3,200,559
Intergovernmental	882,673	335,492	-	5,110,344
Loans	-	-	-	720,000
Miscellaneous	-	-	-	16,457
Contributions	-	-	74,143	74,143
Gross receivables	1,262,131	335,492	74,143	9,121,503
Less allowance for uncollectibles	-	-	-	(2,567,249)
Net receivables	\$ 1,262,131	\$ 335,492	\$ 74,143	\$ 6,554,254

Accounts payable and accrued liabilities for the City's individual major and nonmajor funds are as follows:

	General	Street Maintenance	Capital Infrastructure	Wastewater/ Stormwater	Marina (Nonmajor Fund)	Total
Vendors	\$ 358,223	\$ 134,029	\$ 103,377	\$ 693,312	\$ 29,361	\$ 1,318,302
Payroll liabilities	322,336	19,159	-	100,510	21,220	463,225
Retainage	-	184,783	-	10,844	71,997	267,624
Accrued interest	-	-	-	137,362	-	137,362
Total	\$ 680,559	\$ 337,971	\$ 103,377	\$ 942,028	\$ 122,578	\$ 2,186,513

Note 5 - Interfund Balances and Transfers

The composition of interfund transfers is as follows:

Transfer Out	Transfer In				Total
	General Fund	Capital Infrastructure Fund	Non-Major Governmental Funds	Wastewater/ Stormwater Fund	
General Fund	\$ -	\$ -	\$ 5,000	\$ -	\$ 5,000
Capital Infrastructure Fund	269,727	-	1,350,529	650,000	2,270,256
Street Maintenance Fund	-	12,246	-	-	12,246
Nonmajor Governmental Funds	30,297	553,798	-	-	584,095
Marina Fund	59,113	-	-	-	59,113
Wastewater/Stormwater Fund	361,132	-	-	-	361,132
Total	\$ 720,269	\$ 566,044	\$ 1,355,529	\$ 650,000	\$ 3,291,842

Transfers of \$ 420,245 were made from the Marina and Wastewater/Stormwater Utility Enterprise Funds to the General Fund to support general administration costs.

Transfers totaling \$ 566,044 were made from the Street Maintenance and Non-Major Funds to the Capital Infrastructure Fund in order to set aside funds for the purchase of new City vehicles and improvement projects.

Transfers of \$ 1,350,529 and \$ 650,000 were made from the Capital Infrastructure Fund to the Debt Service Fund and the Wastewater/Stormwater Fund, respectfully, as well as \$ 5,000 from the General Fund to the Debt Service Fund in order to satisfy debt service requirements.

City of Marathon, Florida
Notes to Basic Financial Statements
September 30, 2020

Note 5 - Interfund Balances and Transfers (continued)

A transfer of \$ 269,727 from the Capital Infrastructure Fund to the General Fund was made for the fiscal year 2020 10% of discretionary sales tax proceeds in accordance with the exception under Florida Statutes for areas of Critical State concern.

A transfer of \$ 30,297 was made from Non-Major Funds to the General Fund for an impact fee study.

Note 6 - Capital Assets

Capital asset activity for the year ended September 30, 2020 was as follows:

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Governmental Activities:					
Capital assets not being depreciated:					
Land	\$ 11,263,077	\$ 950,713	\$ -	\$ -	\$ 12,213,790
Intangibles	3,822	-	-	-	3,822
Construction-in-progress	1,725,268	1,740,119	-	(1,066,492)	2,398,895
Total capital assets not being depreciated	12,992,167	2,690,832	-	(1,066,492)	14,616,507
Capital assets being depreciated:					
Buildings and structures	20,898,929	31,954	-	-	20,930,883
Improvements other than buildings	17,451,832	1,273,022	-	1,066,492	19,791,346
Fire equipment and vehicles	5,025,322	149,637	193,945	-	4,981,014
Furniture and equipment	2,261,552	145,717	119,330	-	2,287,939
Intangibles	7,600	-	-	-	7,600
Total capital assets being depreciated	45,645,235	1,600,330	313,275	1,066,492	47,998,782
Total capital assets	58,637,402	4,291,162	313,275	-	62,615,289
Less accumulated depreciation:					
Buildings and structures	5,419,889	641,439	-	-	6,061,328
Improvements other than buildings	8,869,562	935,954	-	-	9,805,516
Fire equipment and vehicles	2,887,861	404,524	183,968	-	3,108,417

Depreciation was charged to the business-type activities of the City as follows:

Business-type activities:	
Enterprise - Wastewater/Stormwater	\$ 5,079,685
Enterprise - Marina	<u>158,880</u>
Total provision for depreciation - business-type activities	<u>\$ 5,238,565</u>

Note 7 - Long-Term Liabilities

The following is a summary of changes in long-term liabilities of the City for governmental activities for the year ended September 30, 2020:

	Balance October 1, 2019	Increases	Decreases	Balance September 30, 2020	Due Within One Year
Governmental activities:					
Direct borrowings and private placements:					
Bonds payable:					
Series 2013A	\$ 5,860,000	\$ -	\$ 605,000	\$ 5,255,000	\$ 620,000
Note payable	1,575,000	-	525,000	1,050,000	525,000
Compensated absences payable	211,260	52,221	59,477	204,004	20,400
Net pension liability	83,282	14,073	-	97,355	-
Other post-employment benefit liability	<u>377,516</u>	<u>274,883</u>	<u>-</u>	<u>652,399</u>	<u>-</u>
Governmental activities, long-term debt	<u>\$ 8,107,058</u>	<u>\$ 341,177</u>	<u>\$ 1,189,477</u>	<u>\$ 7,258,758</u>	<u>\$ 1,165,400</u>

Public Improvement Refunding Revenue Bonds, Series 2013A: During fiscal year 2014, the City issued \$10,000,000 in Public Improvement Refunding Revenue Bonds Series 2013A for the purposes of refinancing the Improvement Revenue Bond, Series 2004 and to finance the construction and acquisition of certain capital projects, including a City Hall. The bonds bear interest at 2.59%, subject to adjustments based on occurrence of a determination of taxability event and by margin factor as calculated by vendor, with quarterly principal and interest payments due through January 1, 2028. Effective November 1, 2018, the interest rate was increased to 3.09% due to a change in the corporate tax rate. The bonds are secured by certain non ad-valorem revenues of the City. The Series 2013A Bond may be prepaid at the option of the City in whole or in part, at any time, together with a prepayment penalty equal to the greater of (i) one percent (1%) of the principal balance being prepaid multiplied by the remaining term in years or (ii) a yield maintenance fee as outlined in the Bond Indenture.

If any principal or interest on the Series 2013A Bond is not paid when due, from the date three (3) days after such default, the Series 2013A Bond shall bear interest at the interest rate plus four percent (4.00%). Further, if any principal or interest on the Series 2013A Bond is not paid within fifteen (15) days of the payment date, a late charge of six percent (6%) of the overdue payment shall be assessed. In no event shall the Series 2013A Bond bear interest in excess of the highest rate of interest allowed by applicable law.

Note 7 - Long-Term Liabilities (continued)

Annual debt service requirements of the Public Improvement Refunding Revenue Bonds Series 2013A are as follows:

<u>September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 620,000	\$ 155,303	\$ 775,303
2022	640,000	135,952	775,952
2023	650,000	115,983	765,983
2024	675,000	95,666	770,666
2025	685,000	74,615	759,615
2026-2028	<u>1,985,000</u>	<u>87,389</u>	<u>2,072,389</u>
	<u>\$ 5,255,000</u>	<u>\$ 664,908</u>	<u>\$ 5,919,908</u>

Note Payable: During fiscal year 2019, the City issued a \$ 1,575,000 note payable for the purposes of financing the acquisition of real property. The note bears interest at 2.95%, with annual principal and interest payments due through October 4, 2021. The note may be prepaid in whole or in part without penalty. A late charge of five percent (5%) shall be imposed on each and every payment not received within ten (10) days after it is due. Upon default of this note, interest shall be payable at the highest rate permitted by applicable law.

Annual debt service requirements of the note payable are as follows:

<u>September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 525,000	\$ 30,975	\$ 555,975
2022	<u>525,000</u>	<u>15,488</u>	<u>540,488</u>
	<u>\$ 1,050,000</u>	<u>\$ 46,463</u>	<u>\$ 1,096,463</u>

Line of Credit: During fiscal year 2019, the City renewed the non-revolving line of credit agreement not to exceed \$ 9,750,000 to finance the costs and expenditures associated with the clean-up and reconstructive efforts related to the aftermath of Hurricane Irma. The line of credit matures on December 31, 2020 and bears interest at 2.80%. The line of credit is secured by the reimbursement proceeds from the Federal Emergency Management Agency. At September 30, 2020, the line of credit carried a balance due of \$ 0.

City of Marathon, Florida
Notes to Basic Financial Statements
September 30, 2020

Note 7 - Long-Term Liabilities (continued)

The following is a summary of changes in long-term liabilities of the City's business-type activities for the year ended September 30, 2020:

	Balance October 1, 2019	Increases	Decreases	Balance September 30, 2020	Due Within One Year
Business-Type Activities:					
Direct borrowings and private placements:					
Bonds payable:					
State Revolving Fund Loan Program	\$ 50,993,466	\$ -	\$ 4,129,282	\$ 46,864,184	\$ 4,227,412
Compensated absences payable	54,894	31,283	5,145	81,032	8,104
Other post-employment benefit liability	112,764	90,359	-	203,123	-
Business-type activities, long-term debt	<u>\$ 51,161,124</u>	<u>\$ 121,642</u>	<u>\$ 4,134,427</u>	<u>\$ 47,148,339</u>	<u>\$ 4,235,516</u>

State Revolving Fund Loans: As of September 30, 2020, the City has four revolving loan agreements with the State of Florida Department of Environmental Protection Clean Water State Revolving Fund Loan program to finance its wastewater and stormwater utility capital projects. The loans are collateralized by a pledge of the wastewater and stormwater non-ad valorem assessments. The loans require the City to provide pledged revenues equal to or exceeding 1.20 times the sum of the loan amounts due in each fiscal year. It is estimated that 100% of the pledged revenue will cover debt service to maturity. Through September 30, 2020, the City has borrowed a total of \$ 46,864,184 under these agreements and repayments have begun on all loan agreements which have outstanding balances. The breakdown as of September 30, 2020 of the total amounts authorized, the fixed weighted average interest rates, the estimated semi-annual payment amount and the amounts drawn to date on each loan is as follows:

SRF Loan Agreement	Total Loan Authorized Amount	Interest Rate	Semi-Annual Payment Amount	Total Obligation September 30, 2020
WW 63702P	\$ 31,308,211	2.25-2.54%	\$ 1,010,699	\$ 16,273,287
WW 637060	21,541,520	2.08-2.73%	710,253	14,154,115
WW 637090	10,373,801	2.02-2.66%	330,170	6,015,773
WW 637020	17,131,172	2.08%	607,285	10,421,009
Total	<u>\$ 80,354,704</u>		<u>\$ 2,658,407</u>	<u>\$ 46,864,184</u>

Note 7 - Long-Term Liabilities (continued)

Annual debt service requirements of the State Revolving Fund loans are approximately as follows:

September 30,	Principal	Interest	Total
2021	\$ 4,227,412	\$ 1,089,400	\$ 5,316,812
2022	4,328,064	988,750	5,316,814
2023	4,431,134	885,679	5,316,813
2024	4,536,679	780,133	5,316,812
2025	4,644,762	672,051	5,316,813
2026-2030	22,297,388	1,657,992	23,955,380
2031-2032	2,398,745	62,021	2,460,766
	<u>\$ 46,864,184</u>	<u>\$ 6,136,026</u>	<u>\$ 53,000,210</u>

The State Revolving Fund Loan arrangements discussed above include other financial provisions for events of defaults such as failure to make monthly deposits and semiannual loan payments, violation of covenants or actions required by the arrangements with such failure continuing for a period of sixty days after written notice, insolvency-bankruptcy, and false representations. Non-payment may result in acceleration of the repayment schedule or increasing the financing rate on the unpaid principal balance to as much as 1.667 times the financing rate. The lender may also seek enforcement of and exercise all remedies available and allowed by law.

Note 8 - Commitments and Contingencies

Risk management: The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City purchases commercial insurance. There was no reduction in insurance coverage from coverages in the prior year. Settlement amounts have not exceeded insurance coverage during the past three years.

Litigation: The City is a defendant in various lawsuits including personal injury, property damage, and other miscellaneous claims. For one of these cases, there is a reasonable possibility that a loss has been incurred. The City estimates its possible exposure could be between \$ 1,000,000 and \$ 3,000,000. Due to the uncertainty of the outcome, no liability has been recorded in the financial statements for this case. The remainder of the legal proceedings are incidental to the City's operations, the outcome of which, in the opinion of management and legal counsel, would not have a material adverse effect on the financial condition of the City.

Grant contingency: Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government and the State of Florida. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

Note 8 - Commitments and Contingencies (continued)

Construction commitment: At September 30, 2020 the City had the following outstanding construction commitments:

Project	Total Project Authorization	Expended at September 30, 2020	Contracts and Retainage Payable	Balance to Complete
Marathon Area 3 & 4 Wastewater Treatment Plant upgrades	\$ 7,373,056	\$ 6,989,699	\$ 383,357	\$ -
Pump Station Rehabilitation Phase 2 C, E, and D Manhole	419,415	-	8,440	410,975
Hurricane Irma Damage Repairs	719,973	635,202	84,771	-
Aviation Blvd Multi-Use Trail	1,847,831	1,596,905	250,926	-
	<u>\$ 10,360,275</u>	<u>\$ 9,221,806</u>	<u>\$ 727,494</u>	<u>\$ 410,975</u>

Agreement for Police Services: The City has a contract with Monroe County Sheriff's Office (the "Sheriff") to provide professional police services through September 2021. Pursuant to the agreement, the Sheriff will provide law enforcement coverage within the City. Services for the fiscal year ending September 30, 2021 are budgeted to be approximately \$ 1,891,060. Costs for police services for the year ended September 30, 2020 were approximately \$ 1,770,620.

Collective Bargaining Agreement: The City has a collective bargaining agreement between the City and the professional firefighters of Marathon, International Association of Firefighters Local 4396. The agreement is effective through September 30, 2023 (and shall be renewed on an annual basis thereafter, unless either party provides the other written notice of its intent to terminate or modify the agreement not less than ninety days prior to expiration date).

Agreement to Provide Fire Rescue and Emergency Medical Services: The City previously entered into an interlocal agreement for the provision of fire rescue and emergency medical services to Key Colony Beach ("KCB") by the City's own fire rescue department through September 30, 2023. Fees received for these services for the year ended September 30, 2020 were \$ 550,000 from ad valorem revenue and \$ 25,000 from KCB's discretionary sales tax revenues.

Note 9 - Defined Contribution Plans

The City as a single-employer contributes to the City of Marathon Money Purchase Plan, which is a defined contribution plan created in accordance with Internal Revenue Code Section 401(a). Under the Plan, the City contributes 10% for employees hired prior to August 9, 2011 and 5% for those hired thereafter. Normal retirement is defined as age 59-1/2. The employees are not required to make contributions and are fully vested on their first day of employment. Amendments to the Plan must be authorized by the City Council.

The City also has a deferred compensation pension plan created in accordance with the Internal Revenue Service Code Section 457(b). The City Manager and City Attorney receive an automatic 10% contribution with no match requirement.

Note 9 - Defined Contribution Plans (continued)

The 401(a) and 457(b) plans mentioned above are administered by ICMA Retirement Corporation. The City provided contributions to these plans for the year ended September 30, 2020 of approximately \$ 285,290.

The elected officials of the City have the option of participating in the Florida Retirement System Investment Plan ("Investment Plan") which is a defined contribution plan or the Florida Retirement System Pension Plan ("Pension Plan") which is a defined benefit plan (Note 10). The Investment Plan is qualified under Section 401 (a) of the Internal Service Code. The employer and employee contributions for the Investment Plan are defined by law. Employees are required to contribute 3% of their salary. The amount contributed by the City is the same whether the elected official participates in the Investment Plan or the Pension Plan (Note 10). The City contributed \$ 2,041 to the Investment Plan for the year ended September 30, 2020.

Note 10 - Employee Pension Plans

Firefighters' Pension Plan

Plan Description: The City established The City of Marathon Firefighters' Pension Plan and Trust Fund (the Plan) as a Local Law Plan in accordance with Chapter 175, Florida Statutes on October 1, 2005 as per a City adopted ordinance. The Plan is a single-employer, defined benefit plan that covers all full-time firefighters. This replaces the previous Firefighters Pension Fund first created on December 9, 2003 and is treated as a newly created Plan from an actuarial standpoint. From a financial statement perspective, the ending net position of the old Plan became the beginning net position of the new Plan on October 1, 2005. The administrative duties for this Plan are handled through the Florida Municipal Pension Trust Fund ("FMPTF"). A more detailed description of the Plan appears in the ordinances constituting the Plan and in the Summary Plan Description. The Plan does not issue a stand-alone financial report, but is included in the reporting entity of the City as a pension trust fund. Amendments to the Plan document can only be authorized by the City Council.

The Board of Trustees is comprised of the following five members: two of the members shall be legal residents of the City and are appointed by the City Council; two of the members shall be full-time firefighters of the City elected by a majority of the active firefighters who are members of the Plan; and the fifth member of the Board shall be chosen by a majority of the previous four Board members. The name of the fifth Board member is then submitted to City Council who appoints such person to the Board.

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. City contributions are recognized when due pursuant to actuarial valuations. State contributions are recognized as revenue in the period in which they are approved by the State of Florida. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Administrative costs of the Plan are financed through investment earnings.

Note 10 - Employee Pension Plans (continued)

Investments: *Investment Policy.* The policy regarding the allocation of invested assets is established by its Board of Trustees which currently has all of its funds invested in the Florida Municipal Pension Trust Fund, 60% equities and 40% fixed income - Fund A Option. The investment policy may be amended by the Board by a majority vote of its trustees. It is the policy of the Board of Trustees to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Overall asset allocation targets are reviewed on an annual basis. The following is the adopted asset allocation policy as of September 30, 2020:

<u>Asset Class/Investment Category</u>	<u>Target Allocation</u>
Equity Securities and Similar Funds:	
U.S. Large Cap Equity	34.00%
U.S. Small Cap Equity	11.00%
Non - U.S. Equity	15.00%
Real Estate	10.00%
Fixed Income and Similar Funds:	
Core Bonds	15.00%
Multi-Sector	15.00%
Total	<u>100.00%</u>

Concentrations: Governmental entities need to disclose the concentration of credit risk with a single issuer. If 5.00% or more of the total assets of the portfolio are invested with one issuer, an additional disclosure is required. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools and other pooled investments are excluded from the concentration of credit risk disclosure requirements. There were no individual investments that represent 5.00% or more, at September 30, 2020, that met the criteria for disclosure.

Rate of return: For the year ended September 30, 2020, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 1.47%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Method used to value investments: Investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price. Net appreciation/depreciation in fair value of investments includes realized and unrealized gains and losses. Interest and dividends are reported in investment earnings. Realized gains and losses are determined on the basis of specific cost. Purchases and sales are recorded on the trade-date basis.

Reserves: Chapter 175, Florida Statutes, established a revenue sharing program whereby participating local governments can receive a portion of the state excise tax of property and casualty insurance premiums collected in their jurisdictions to fund pension benefits for firefighters. Chapter 99-1, Laws of Florida amended Chapter 175 to require future increases in premium tax revenues over those received in 1997 must be used solely to pay for extra retirement benefits for firefighters. Since these increases in premiums tax revenues do not support current benefits the City has recorded a liability of \$ 165,909 for the monies received as of September 30, 2020.

Note 10 - Employee Pension Plans (continued)

Pension benefits: Normal retirement is defined by the Plan as the attainment of age 55 with 6 years of credited service or 20 years of credited service with no age requirement. Upon normal retirement, participants are entitled to 3.5% of their average final compensation for each year of credited service. Benefit options include a ten year certain payout or a life annuity. Early retirement is defined by the Plan as the attainment of age 50 with 6 years of credited service. Upon early retirement, accrued benefits are reduced by 3% per year.

At October 1, 2019, the following employees were covered by the pension benefits:

Inactive employees or beneficiaries currently receiving benefit	6
Inactive employees entitled to but not receiving benefit	8
Active plan members	<u>26</u>
Total members	<u><u>40</u></u>

Deferred Retirement Option Program: Members who continue in employment after reaching their normal retirement date may either accrue larger pensions or freeze their accrued benefit and enter the Deferred Retirement Option Plan (DROP). Each participant in the DROP has an account credited with benefits not received plus interest. Participation in the DROP must end no later than 84 months after normal retirement. These benefit provisions and all other requirements are established by City ordinance. The City did not have any members participating in the DROP for the year ending September 30, 2020.

Contributions and Funding Policy: Firefighters are required to contribute 5% of their salary to the Plan. Contributions from the State of Florida are based on the amount of fire insurance premiums written by private insurers on property within City limits. The City is required to contribute if there is any shortfall between the State's contributions and funding requirements of the Plan.

The City executed a collective bargaining agreement with the firefighter's union. A portion of the agreement addresses the City's firefighter pension contributions. The City would like to try and limit its required contribution to 12% of employee's pensionable pay. If the City is unable to achieve and maintain a net required contribution to the Plan at 12% of compensation or less, and the City's required net contribution actually exceeds 12% of compensation, the City will use the stabilization fund to reduce the net contribution to 12%. If the net contribution is still above 12% the Union agrees to use the excess 175 premium money disbursement for the year to decrease the City's required net contribution to 12%. If the City's net contribution is still above 12% after using the stabilization fund and the excess 175 premium money, the Union agrees to automatically increase the member contribution 1% of compensation for each \$ 25,000 (or part thereof) by which the City's net required contribution exceeded 12% of compensation not to exceed a total member contribution of 15% of compensation.

In the event the City's required net contribution is less than 12% of compensation, the difference will be set aside in a stabilization fund to be applied toward the short fall in any future year in which the City's required net contribution exceeds 12% of compensation. As of September 30, 2020, \$ 252,479 has been set aside in the General Fund.

The required contribution including interest to the Plan as determined by the actuarial valuation was \$ 365,080 for the year ended September 30, 2020. Contributions from the State totaled \$ 158,031 plus City contributions of \$ 266,084. State contributions are recognized as both revenue and expenditure during the period in the General Fund.

Net Pension Liability (Asset) of the City: The City's net pension liability (asset) was determined based on a measurement date of September 30, 2019.

Note 10 - Employee Pension Plans (continued)

The components of the net position (asset) liability of the City at September 30, 2020, were as follows:

		Firefighters' Pension Plan
Total pension liability	\$	7,812,978
Plan fiduciary net position		(9,733,882)
City's net pension (asset) liability	\$	(1,920,904)
Plan fiduciary net position as a percentage of total pension liability		124.59%

Actuarial assumptions. The total net pension liability at September 30, 2019 was determined by using (asset) actuarial valuations as of October 1, 2019. The actuarial valuations used the following actuarial assumptions:

Salary increases	4.0 percent, average, including inflation
Investment rate of return	7.5 percent, net of pension plan investment expense, including inflation
Mortality rates	RP2000 Generational with Scale BB.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Core Bonds	1.6%
Multi-Sector	2.1%
U.S. Large Cap Equity	4.6%
U.S. Small Cap Equity	5.5%
Non-U.S. Equity	6.7%
Real Estate	5.0%

Discount rate. The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that plan member contribution will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 10 - Employee Pension Plans (continued)

Changes in net pension liability (asset).

	Increases (Decreases)		
	Total Pension Liability (a)	Plan Fiduciary Position (b)	Net Pension Liability (Asset) (a)-(b)
Balances at September 30, 2018	\$ 6,351,157	\$ 8,874,070	\$ (2,522,913)
Changes for the year:			
Service cost	646,079	-	646,079
Interest cost	523,895	-	523,895
Contributions - employer	-	185,139	(185,139)
Contributions - employee	-	99,496	(99,496)
Contributions - nonemployer contributing member	-	150,076	(150,076)
Differences between expected and actual experience	366,599	-	366,599
Changes of assumptions	(50,801)	-	(50,801)
Net increase (decrease) in fair value of investments	-	497,134	(497,134)
Benefit payments, including refunds of member contributions	(23,951)	(23,951)	-
Administrative expenses	-	(48,082)	48,082
Net Changes	1,461,821	859,812	602,009
Balances at September 30, 2019, measurement date	\$ 7,812,978	\$ 9,733,882	\$ (1,920,904)

Sensitivity of the net pension liability (asset) to changes in the discount rate. The following presents the net pension liability (asset) of the City, calculated using the discount rate of 7.50 percent, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's net pension liability (asset)	\$ (547,824)	\$ (1,920,904)	\$ (3,022,462)

Note 10 - Employee Pension Plans (continued)

Pension Expense and Deferred Outflows of Resources Related to Pensions: For the year ended September 30, 2020, the City recognized pension expense of \$ 431,092 for this Plan. At September 30, 2020 the City reported deferred outflow of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to year end	\$ 424,115	\$ -
Differences between expected and actual experience	358,536	(564,081)
Changes of assumptions	83,218	(45,721)
Net difference between projected and actual earning on pension plan investments	-	(28,713)
Total	\$ <u>865,869</u>	\$ <u>(638,515)</u>

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer's fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2021. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended September 30,	
2021	\$ (93,498)
2022	\$ (84,715)
2023	\$ (2,229)
2024	\$ (2,035)
2025	\$ (38,441)
Thereafter	\$ 24,157

Florida Retirement System

General Information: As provided by Chapters 121 and 112, Florida Statutes, the Florida Retirement System ("FRS") provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan ("Pension Plan") and the Retiree Health Insurance Subsidy ("HIS Plan"). Membership in the FRS for the City includes only certain elected Council members as of September 30, 2020. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or by calling (877) 377-1737 or by visiting the Web site: www.dms.myflorida.com/workforce_operations/retirement/publications.

Note 10 - Employee Pension Plans (continued)

Pension Plan

Plan Description: The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.

Benefits Provided: Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. Elected Officers' class members who retire at or after age 62 with at least six years of creditable service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% times the years of service times their final average compensation based on the five highest years of salary for each year of creditable service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of creditable service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Elected Officers' class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before August 1, 2011, the annual cost of living adjustment ("COLA") is three percent per year. The COLA formula for retirees with an effective retirement date or DROP begin date on or after August 1, 2011, will be the sum of the pre-July 2011 service credit divided by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Contributions: Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute three percent of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates for the periods from October 1, 2019 through June 30, 2020 and from July 1, 2020 through September 30, 2020, respectively, were 48.82% and 49.18% for the Elected Officers' class. These employer contribution rates include 1.66% to the HIS Plan subsidy for the periods October 1, 2019 through September 30, 2020.

HIS Plan

Plan Description: The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided: For the fiscal year ended September 30, 2020, eligible retirees and beneficiaries received a monthly HIS payment of \$ 5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$ 30 and a maximum HIS payment of \$ 150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Note 10 - Employee Pension Plans (continued)

Contributions: The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2020, the HIS contribution was 1.66%. The City contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At September 30, 2020, the City reported a liability of \$ 91,023 for its proportionate share of the Pension Plan's net pension liability and \$ 6,332 for the HIS Plan's net pension liability for a total pension liability of \$ 97,355. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. At June 30, 2020, the City's proportion was .000210013 percent for the Pension Plan and .000051863 percent for the HIS Plan, which was a decrease of .00001433 percent and a decrease of .000001958 percent respectively, from the proportionate share measured as of June 30, 2019.

For the year ended September 30, 2020, the City recognized pension expense (income) of \$ 6,698 for the Pension Plan and \$ (2,771) for the HIS Plan. At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources		
	Pension Plan	HIS Plan	Total
Differences between expected and actual experience	\$ 3,484	\$ 259	\$ 3,743
Changes of assumptions	16,478	681	17,159
Net difference between projected and actual earnings on pension plan investments	5,420	5	5,425
Changes in proportion and differences between City contributions and proportionate share of contributions	2,308	19	2,327
City contributions subsequent to the measurement date	1,761	75	1,836
Total	\$ 29,451	\$ 1,039	\$ 30,490

Note 10 - Employee Pension Plans (continued)

Description	Deferred Inflows of Resources		
	Pension Plan	HIS Plan	Total
Differences between expected and actual experience	\$ -	\$ (5)	\$ (5)
Changes of assumptions	-	(368)	(368)
Changes in proportion and differences between City contributions and proportionate share of contributions	(72,537)	(12,013)	(84,550)
Total	\$ (72,537)	\$ (12,386)	\$ (84,923)

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer's fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2020. The amounts reported as deferred outflows of resources and deferred inflows of resources related to the FRS Plan will be recognized in pension expense as follows:

Year Ended September 30,	Pension Plan	HIS Plan	Total
2021	\$ (18,858)	\$ (3,211)	\$ (22,069)
2022	\$ (16,904)	\$ (3,265)	\$ (20,169)
2023	\$ (9,053)	\$ (3,177)	\$ (12,230)
2024	\$ (423)	\$ (1,619)	\$ (2,042)
2025	\$ 391	\$ (202)	\$ 189
Thereafter	\$ -	\$ 52	\$ 52

Actuarial Assumptions: The Florida Retirement System Actuarial Assumption Conference is responsible for setting the assumptions used in the funding valuations of both pension plans pursuant to section 216.136 (10), Florida Statutes. The Pension Plan's valuation is performed annually. The HIS Plan has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the Pension Plan was completed in 2019 for the period July 1, 2013, through June 30, 2018. Because the HIS Plan is funded on a pay-as-you-go basis, no experience study has been completed for that program. The actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the Pension Plan. The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Pension Plan	HIS Plan
Inflation	2.40%	2.40%
Salary increases	3.25%, average, including inflation	3.25%, average, including inflation
Investment rate of return	6.80%, net of pension plan investment expense, including inflation	N/A
Actuarial cost method	Individual entry age	Individual entry age
Mortality table	PUB-2010 with Projection Scale MP-2018	PUB-2010 with Projection Scale MP-2018

Note 10 - Employee Pension Plans (continued)

Long-term Expected Rate of Return: The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.2%	2.2%	1.2%
Fixed income	19.0%	3.0%	2.9%	3.5%
Global equity	54.2%	8.0%	6.7%	17.1%
Real estate (property)	10.3%	6.4%	5.8%	11.7%
Private equity	11.1%	10.8%	8.1%	25.7%
Strategic investments	4.4%	5.5%	5.3%	6.9%
Total	100.0%			
Assumed Inflation - Mean			2.4%	1.7%

(1) As outlined in the Pension Plan's investment policy

Discount Rate: The discount rate used to measure the total pension liability was 6.80% for the Pension Plan. The Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

The discount rate used to measure the total pension liability was 2.21% for the HIS Plan. In general, the discount rate for calculating the HIS Plan's total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Plan benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the municipal bond rate of 2.21% was used to determine the total pension liability. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the City's Proportionate Share of the Net Position Liability to Changes in the Discount Rate: The following table presents the sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The sensitivity analysis, below, shows the impact to the District's proportionate share of the net pension liability if the discount rate was 1.00% lower or 1.00% higher than the current discount rate:

	1% Decrease (5.80%)	Current Discount Rate (6.80%)	1% Increase (7.80%)
City's proportionate share of the net pension liability for Pension Plan	\$ 145,348	\$ 91,023	\$ 45,650

Note 10 - Employee Pension Plans (continued)

	1% Decrease (1.21%)	Current Discount Rate (2.21%)	1% Increase (3.21%)
City's proportionate share of the net pension liability for HIS Plan	\$ <u>7,320</u>	\$ <u>6,332</u>	\$ <u>5,524</u>

Aggregate amounts for all plans:

	Firefighters' Pension Plan	FRS Pension Plan	FRS HIS Plan	Total
Net pension asset	\$ 1,920,904	\$ -	\$ -	\$ 1,920,904
Net pension liability	\$ -	\$ 91,023	\$ 6,332	\$ 97,355
Deferred outflows of resources	\$ 865,869	\$ 29,451	\$ 1,039	\$ 896,359
Deferred inflows of resources	\$ 638,515	\$ 72,537	\$ 12,386	\$ 723,438
Pension expense (income)	\$ 389,658	\$ 6,698	\$ (2,771)	\$ 393,585

Note 11 - Other Post-Employment Health Care Benefits

The City previously implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB Statement No. 75 specifies that governments must recognize their total OPEB liability and related deferred outflows of resources, deferred inflows of resources, and OPEB expense in the financial statements based on the actuarial present value of projected benefit payments, rather than the smaller net OPEB obligation based on contribution requirements, under GASB Statement No. 45.

Plan Description and Funding Policy: Employees who retire from the City and their dependents are eligible to continue to participate ("single employer plan") in the City's health insurance plan currently offered through the City at the "blended" employee group rate which, is determined annually by the City. The retiree must continue to meet all participation requirements and pay all applicable premiums by the specified due date.

The City provides no funding for any portion of the premiums after retirement. However, the City recognizes that there is an "implicit subsidy" arising as a result of the blended rate premium since retiree health care costs, on average are higher than active employee healthcare costs. The plan is not accounted for as a trust fund and an irrevocable trust has not been established to fund this plan. The plan does not issue a separate financial report. It is the City's current policy to fund the plan on a "pay-as-you-go" basis from the General Fund.

Note 11 - Other Post-Employment Health Care Benefits (continued)

The following table provides a summary of the number of participants in the plan as of October 1, 2017:

Inactive employees or beneficiaries currently receiving benefit	2
Active plan members	<u>96</u>
Total members	<u><u>98</u></u>

Actuarial Methods and Assumptions: The actuarial valuation of the calculation of OPEB involves estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the City and plan members) and include the types of benefits in force at the valuation date and the historical pattern of sharing benefit costs between the City and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The total OPEB liability at September 30, 2020 was based on an actuarial valuation dated October 1, 2019 with a measurement date of September 30, 2020, using the following actuarial assumptions:

Actuarial Cost Method	Entry Age Normal
Discount Rate	2.15%
Salary Increases	2.80%
Mortality	Mortality rates are based on the SOA RP-2014 Total Dataset Mortality with Scale MP-2019 (Base Year 2006)
Healthcare Cost Trend Rates	Trend rate of 9.80% gradually decreasing to an ultimate trend rate of 5.00%.

Discount Rate: The discount rate used to measure the total OPEB liability at September 30, 2020 was 2.15%. Because the City's OPEB costs are funded on a pay-as-you-go funding structure, a tax-exempt municipal bond rate based on an index of 20 year general obligation bonds with an average AA credit rating as of the measurement date was used to determine the total OPEB liability. The discount rate was 3.64% as of the beginning of the measurement year.

Total OPEB Liability of the City: The components of the City's net OPEB liability at September 30, 2020, are as follows:

Total OPEB liability	\$ 855,522
OPEB Plan fiduciary net position	<u>-</u>
City's net OPEB liability	<u><u>\$ 855,522</u></u>
OPEB Plan fiduciary net position as a percentage of total OPEB liability	<u><u>0.00%</u></u>

Note 11 - Other Post-Employment Health Care Benefits (continued)

Changes in Total OPEB Liability

Measurement year ended September 30, 2020

Total OPEB liability:	
Service cost	\$ 95,343
Interest on total OPEB liability	16,297
Assumption changes	281,376
Difference between actual and expected experience	445
Benefit payments	<u>(28,219)</u>
Net change in total OPEB liability	365,242
Total OPEB liability, beginning	<u>490,280</u>
Total OPEB liability, ending	<u>\$ 855,522</u>

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate: The following table presents the total OPEB liability, calculated using the discount rate of 2.15%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than current discount rate:

	1% Decrease (1.15%)	Current Discount Rate (2.15%)	1% Increase (3.15%)
Total OPEB Liability	\$ <u>973,225</u>	\$ <u>855,522</u>	\$ <u>750,636</u>

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates: The following table presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage-point lower or one percentage-point higher than the current trend rate:

	1% Trend Decrease	Trend Rate Assumption 9.80% Decreasing to 5.00%	1% Trend Increase
Total OPEB liability	\$ <u>718,561</u>	\$ <u>855,522</u>	\$ <u>1,020,508</u>

Note 11 - Other Post-Employment Health Care Benefits (continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: For the year ended September 30, 2020 the City recognized OPEB expense of \$ 132,095. At September 30, 2020, the City has deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in Assumptions	\$ 258,117	\$ -
Differences between expected and actual experience	<u>38,273</u>	<u>116,992</u>
Total	<u>\$ 296,390</u>	<u>\$ 116,992</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending September 30,	Deferred Outflows/ Inflows of Resources
2021	\$ 20,455
2022	20,455
2023	20,455
2024	20,455
2025	20,455
Thereafter	<u>77,123</u>
	<u>\$ 179,398</u>

Note 12 - Risks and Uncertainties

The coronavirus (COVID-19) outbreak has caused disruption in international and U.S. economies and markets. The coronavirus and fear of further spread has caused quarantines, cancellation of events, and overall reduction in business and economic activity. On March 11, 2020, the *World Health Organization* designated the coronavirus outbreak a pandemic. Management and the City Commission continue to evaluate and monitor the potential adverse effect that this event may have on the City's financial position, operations, and cash flows. The full impact of COVID-19 is unknown at this time and cannot be reasonably estimated as these events are still developing.

Note 1 - Budgets and Budgetary Accounting

An annual appropriated budget is adopted for the General Fund, Street Maintenance Fund, Capital Infrastructure Fund, Impact Fees Fund, Vehicle Replacement Fund, Restoration Fund, Affordable Housing Fund and the Debt Service Fund on a basis consistent with accounting principles generally accepted in the United States. The City follows these procedures in establishing the budgetary data reflected in the financial statements.

- a. Annually, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1st. The operating budget includes proposed expenditures and the means of financing them.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to October 1st, the budget is legally enacted through passage of a resolution.
- d. The City Council, by motion, may make supplemental appropriations for the year up to the amount of revenues in excess of those estimated.
- e. The City Manager is authorized to transfer budget amounts within the departments within any fund. However, any revisions that alter the total appropriations of any department must be approved by the City Council. Therefore, the legal level of control is at the department level.
- f. Formal budgetary integration is employed as a management control device during the year for all budgeted funds. The final budget included an amendment by City Council to account for unanticipated revenues that took place during the fiscal year.
- g. Appropriations which are neither expended nor specifically designated to be carried over, lapse at the end of the fiscal year.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Impact Fees Fund - This fund is used to account for transportation, parks and public safety projects. Revenues are derived from impact fees collected during the building permit process.

Affordable Housing Fund - This fund is used to purchase land or homes to be used for affordable housing. These funds are also available to provide down payment assistance to qualified homebuyers.

Restoration Fund - This fund is used for restoration and management activities of public resource protection and conservation lands.

Debt Service Fund

Debt Service Fund - This fund is used to account for the payment of principal, interest and expenditures on the long-term debt of the governmental funds.

City of Marathon, Florida
Budgetary Comparison Schedule - Capital Infrastructure Fund
(Continued)
For the Year Ended September 30, 2020

**Explanation of Differences Between Change in Fund Balance
Budget to Actual and Statement of Revenues, Expenditures
and Changes in Fund Balance - Capital Infrastructure Fund**

Net change in fund balance, Page 73 \$ 576,562

Amounts reported for budget to actual are different because:

The net change in fund balance in the City's Vehicle Replacement Fund are reported in the Vehicle Replacement Fund for budgetary purposes but in the Capital Infrastructure Fund for the purpose of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds:

Net change in fund balance - Vehicle Replacement Fund 632,263

Net change in fund balance per the Statement of Revenues, Expenditures, and Changes in Fund Balances - Capital Infrastructure Fund, Page 20 \$ 1,208,825

STATISTICAL SECTION

This part of the City of Marathon's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>CONTENTS</u>	<u>PAGE</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	77-86
Revenue Capacity These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	87-90
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	91-93
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	94-95
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	96-98

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note (1): Property in the City is reassessed each year. The Property Appraiser estimates a just (market) value for all types of real property. For non-homesteaded properties the just value is equal to the assessed value. For homesteaded properties, the just value is adjusted for both the Florida 'Save Our Homes' valuation cap and the homestead exemption amount to arrive at the assessed value. As a result, there is no formula available to estimate the relationship between overall just (actual) value and assessed value.

Note: All millage rates are based on \$ 1 for every \$ 1,000 of assessed value.

Note (1) Overlapping rates are those of local and county governments that apply to property owners within the City of Marathon, Florida.

Note (2) The City of Marathon levies one millage rate for the services it provides, therefore, there are no other components of the direct rate to display.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and City Council
City of Marathon, Florida
Marathon, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Marathon, Florida (the "City") as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 31, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

KEEFE McCULLOUGH

Fort Lauderdale, Florida

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and City Council
City of Marathon, Florida
Marathon, Florida

Report on Compliance for Each Major Federal Program and State Project

We have audited City of Marathon, Florida's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended September 30, 2020. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program and State Project

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charge with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weakness may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT TO CITY MANAGEMENT

To the Honorable Mayor and City Council
City of Marathon, Florida
Marathon, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Marathon, Florida (the "City"), as of and for the year ended September 30, 2020, and have issued our report thereon dated March 31, 2021.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Florida Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated March 31, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City of Marathon, Florida was established in 1999 under the provision of Chapter 99-427 of the laws of the State of Florida. The City does not have any component units.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Council Members and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE
WITH SECTION 218.415, FLORIDA STATUTES

To the Honorable Mayor and City Council
City of Marathon, Florida
Marathon, Florida

We have examined City of Marathon, Florida's (the "City") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2020. Management is responsible for the City's compliance with the specific requirements. Our responsibility is to express an opinion on the City's compliance with the specific requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with the specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of Council members, management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.

See notes to the Schedule of Expenditures of Federal Awards.

City of Marathon, Florida
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended September 30, 2020

Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal grant activity of the City of Marathon, Florida (the "City"). The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) *Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments* as well as other applicable provisions of contracts and grant agreements, wherein certain types of expenditures are not allowable or are limited as to reimbursements, as applicable.

Note 3 - Indirect Cost Rate

The City did not elect to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 4 - Contingency

The grant and contract revenue received is subject to audit and adjustment. If any expenditures or expenses are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor/contract agencies would become a liability of the City. In the opinion of management, all grant and contract expenditures are in compliance with the terms and conditions of the grant agreements and applicable federal/state laws and other applicable regulations.

Note 5 - Prior Year Expenditures

The Schedule includes contracts/grants from the U.S. Department of Homeland Security in the amount of \$ 10,044,091 that represent expenditures from the 2017 and 2018 fiscal years.
