Florida Municipal Pension Trust Fund – DB 70% Equity Allocation Executive Summary

As of September 30, 2025

DB 70% Equity Allocation

- The FOMC made its first policy rate change of 2025 when it lowered the Federal Funds rate by 25 bps to a range of 4.00%-4.25%, with the committee's updated dot plot forecasting two additional cuts in 2025. Inflation remains stuck well above the 2% target, but its rise has not been as severe as feared given the sharp increase in tariffs. US equities rose in the third quarter with solid earnings and central bank policy easing helping to sustain the rally. Emerging markets continue to be the top performer, supported by strong returns from Chinese equities. Core real estate returns maintained momentum with a 5th consecutive quarter of positive returns. However, the return is comprised almost entirely of income as price appreciation remains flat. The 70% Equity Allocation trailed the Target Index in the third quarter, up 3.1% versus up 6.0%.
- This allocation has earned an 8.9% return over the past 5 years, slightly behind the Target Index (up 8.9% vs. up 9.6%).
- Over the past 10 years, this allocation is up 8.9% on average annually. While this performance is modestly behind the index, it ranks in the top 29th percentile of the peer group, with the risk controlled nature of many of the underlying strategies providing downside protection should the markets continue to moderate or decline.

FMIvT Broad Market High Quality Bond Fund

- The Broad Market High Quality Bond Fund modestly trailed the Bloomberg US Aggregate A+ Index in the third quarter (up 1.7% vs up 1.9%). Despite the Fund's yield advantage, the underweight in credit, the best performing sector in the quarter, hindered the relative performance. However, over the past 10 years, the Fund has achieved nearly 30 basis points of excess return on average annually relative to the benchmark.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

FMIvT Core Plus Fixed Income Fund

- The Core Plus Fixed Income Fund outpaced the Bloomberg Multiverse in the third quarter, up 2.8% vs. up 0.7%. Strong security selection within the financials and industrial sectors continues to move the Fund forward. Non-US currency exposure was additive in the quarter, while yield curve and duration positioning had a neutral impact on the performance. The fund has outpaced the benchmark by nearly 120 basis points so far in 2025 and ranks in the top 39th percentile of its peer group of global unconstrained fixed income managers.
- In the 10 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 3.2% on average annually, ahead of the benchmark (up 1.4%).

FMIvT Diversified Large Cap Equity Portfolio

- At the end of the third quarter the decision was made to transition the Fund's allocation to 100% to the SSgA S&P 500 Fund. The assets from the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund were transferred to a transition account at Northern Trust at the end of September and were fully invested in the SSgA S&P 500 Fund on 10/1/2025. This fund provides investors with passive exposure to the US large cap equity marketplace.
- U.S. equities continue to show resiliency through this tumultuous market environment, with 3rd quarter earnings growth estimated at 7.9%. The Fund's underweight to the information technology and consumer discretionary sectors for nearly the entire quarter, and thus, being underweight to the Magnificent 7, continues to be a headwind as the Diversified Large Cap Equity Portfolio trailed the Russell 1000, up 6.3% vs. up 8.0%.
- The Diversified Large Cap Equity portfolio has achieved a 14.8% return on average annually over the past 5 years.

Florida Municipal Pension Trust Fund – DB 70% Equity Allocation Executive Summary

As of September 30, 2025

FMIvT Diversified Small to Mid Cap Equity Fund

- The Diversified Small to Mid Cap Equity Fund trailed the benchmark in the third quarter, down 3.2% vs. up 9.0%, as lower quality factors like high beta, high valuation, and companies with negative earnings outperformed. While markets have become more optimistic, economic factors like growing budget deficits, unsettled tariff policy and persistent inflation remain real concerns. Despite the near-term difficulties for the Fund, it has outpaced the benchmark by over 70 basis points over the past 7 years.
- This strategy has generated very strong results over the past 10 years, rising 12.3% on average annually compared with 10.5% for the benchmark. Furthermore, the fund ranked in the top 23rd percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

FMIvT International Equity Portfolio

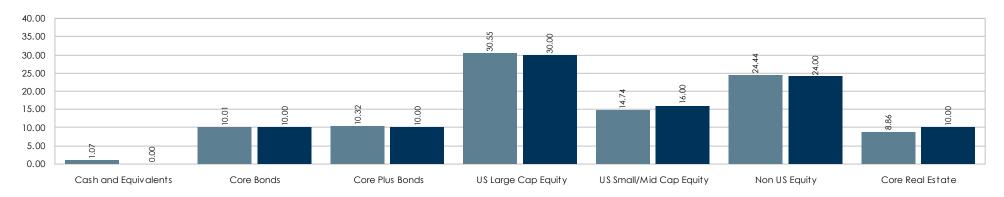

- The FMIvT International Equity Portfolio's momentum continued on an absolute basis in the third quarter with the fund rising 5.6%, This trails the MSCI ACWI ex-US Net benchmark (up 6.9%) with challenging stock selection in the consumer discretionary and technology sectors hindering the relative performance. However, the market outlook remains positive on the global economy with a recalibration of US trade policy and a shift in global monetary stances tempering fears of a sharp slowdown. The fund has outpaced the benchmark by over 680 basis points over the past year (up 23.3% vs. up 16.5%). The portfolio has outperformed the benchmark over longer term time periods.
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

FMIvT Core Real Estate Portfolio

- In early 2023, a \$50 million redemption was submitted in order to rebalance the portfolio with the proceeds scheduled to be paid out over several quarters. This will reduce the total commitment to \$100 million once all the proceeds are received.
- Core real estate returns maintained momentum with a fifth consecutive quarter of positive returns. However, the return is comprised almost entirely of income as price appreciation remains flat. While rising 4.4% over the trailing one year, the FMIVT Core Real Estate portfolio significantly outperformed the benchmark (up 3.2%). Commercial real estate seems to have stabilized overall even as office vacancy rates remain elevated. A resumption of Fed rate cutting could act as a catalyst for transaction volume and price appreciation.
- The portfolio has outperformed the NFI ODCE Net benchmark over the past 5 years and has achieved over 300 basis points of excess return on average annually over the benchmark over the past 7 years.

Florida Municipal Investment Trust Protecting Florida Investment Act - Quarterly Disclosure

As of September 30, 2025

This Disclosure is intended to provide information with respect to Chapter 175 and 185 Police and Fire Plan's required disclosure of direct or indirect holdings in any "scrutinized companies" as defined in the Florida State Board of Administration (FSBA) Global Governance Mandates Quarterly Report for Quarter 3 2025.

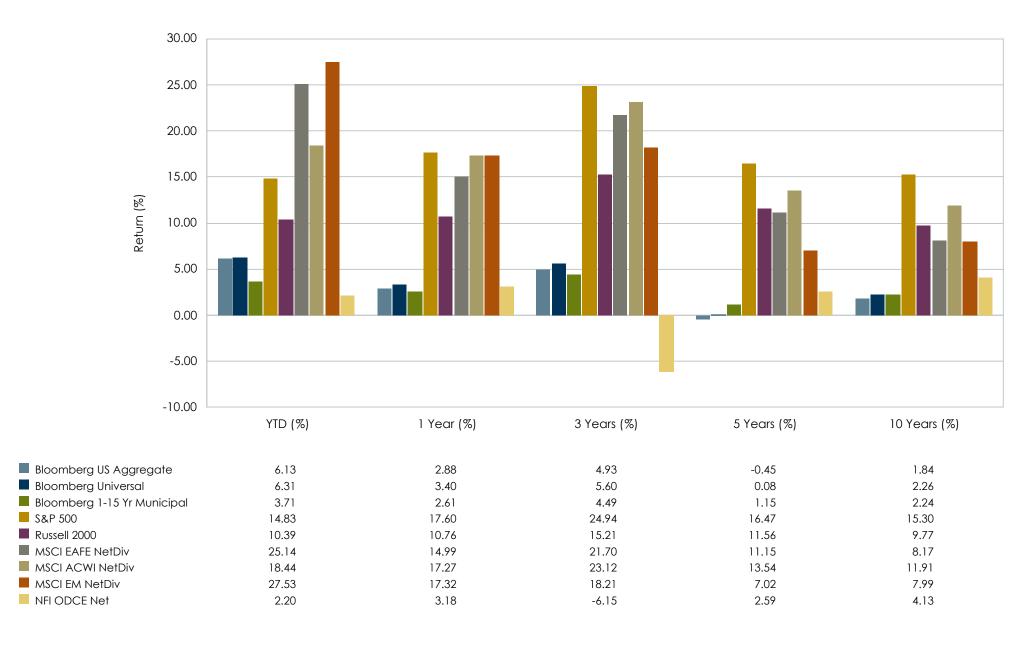

It is important to note that individual Police and Fire Plans have no direct interests in any scrutinized companies. Police and Fire Plans hold an interest in the Florida Municipal Pension Trust Fund. It is also important to note that the Florida Municipal Pension Trust Fund has no direct interests in any scrutinized companies as all of its interests are invested in the Florida Municipal Investment Trust.

The Florida Municipal Investment Trust is the only entity that could possibly have direct interests in any scrutinized companies. ACG has reviewed the FSBA Global Governance Mandates Quarterly Report-September 30, 2025 that is available on the Florida SBA website. We have reviewed the list of companies appearing in Tables 1 and 3- Scrutinized Companies with Activities in Sudan and Iran and Table 9 – Scrutinized Companies or Other Entities that Boycott Israel, and compared these lists to securities of companies held directly by the Florida Municipal Investment Trust. As of 9/30/2025, the Florida Municipal Investment Trust had no direct interest in securities on the above referenced lists.

ACG also requested that investment managers, who manage commingled funds that are owned by the Florida Municipal Investment Trust, review the FSBA Global Governance Mandates Quarterly Report-September 30, 2025 and disclose whether the Florida Municipal Investment Trust may hold any scrutinized companies indirectly through investment in their respective commingled funds. The FMIVT International Equity Portfolio owns units in the Allspring Emerging Markets Large-Mid Cap Equity Fund. The Allspring Emerging Markets Large-Mid Cap Equity Fund holds Sberbank of Russia PJSC, which represents 0.00% of their respective portion of the FMIVT International Equity. All other managers have confirmed that they do not hold any of these securities.
